

ATTITUDE SHOWN BY NEWSPAPERS

FOREIGN OFFICE OF GERMANY IS
VERY DEFIANT TODAY.

RESENT ANY INTERFERENCE

Morning Newspapers of Berlin Say
That United States Can Not
Dictate Policy.

Berlin, July 13.—German newspapers which are known to be under the domination of the foreign office declared in harsh language that Germany would never submit to American supervision of her relations with the Central and South American countries under the plan of the Monroe doctrine.

The afternoon papers, known to be also under the foreign office control, declare that Germany recognizes the right of the United States to maintain her self-appointed guardianship over those countries.

This is an absolute reversal in opinion between the two papers within a few hours. In view of the emperor's statement relative to the matter, as published yesterday, it is surprising and is causing not a little comment in diplomatic circles.

Just what attitude the United States will take in the matter remains to be seen and the outcome is awaited with interest by all the foreign powers. It is certain the stand will be in defense of the Monroe doctrine which the United States will insist upon being upheld in the matter of Nicaragua.

Even the most ardent Jingo follower can see no serious difficulty in the discussion between the two countries and it is expected the matter will be adjusted through the regular channels within a day or two without any further discussion.

QUAKE IS FELT IN MANY LOCALITIES

Disturbance of the Earth Develops in
Many Sections of Europe
Today.

Munich, Bavaria, July 13.—A sharp earthquake was felt here at 4:45 this morning and the walls of several buildings were badly cracked.

The shocks continued for three seconds, thoroughly terrifying the people who fled to the streets for safety. The shock was felt also in the surrounding villages, including Garmisch. At Oberammergau the shock was noticeable but little damage was done.

Many Were Killed.
Berlin, July 13.—Dispatches from the Tyrol, in Austria-Hungary, report one person was killed and twenty others injured by an earthquake at Uttenhohn today.

REUNITED AFTER A LONG SEPARATION

At Atkinson Man and His Sister in
Vermont Learn of Each Others' Whereabouts.

Fort Atkinson, Wis., July 13.—After an absence of fifty years, Miles Osgood, aged 75, a wealthy retired farmer, has been reunited with his sister, Mrs. Jennie Smith, of Springfield, Mass. By her he was supposed to be dead and it was not until a few days ago that he knew she was alive. They separated when she was six. Osgood went out to seek his fortune in the West shortly before the Civil War and left relatives in Vermont.

MUCH DAMAGE DONE TO LARGE FACTORY

Fire Which Started in Cell of Oily
Rags in Shoboygan Building
Caused \$5,000 Loss.

Shoboygan, Wis., July 13.—Fire which started in a cell of oily rags Tuesday night caused \$5,000 damage to the Shoboygan and Machinery company. The fire was under control in twenty minutes. The loss is covered by insurance.

MANY INDICTED BY GRAND JURY TODAY

Fraternal Insurance Affairs Now in
Hands of the Authorities.

Rock Island, Ill., July 13.—The grand jury investigating the fraternal insurance affairs reported today, indicting thirteen men. The names are suppressed pending arrangement for bail. It is said all the indictments are connected with the fraternal insurance disclosures, and that seven of those indicted are accused of participating in the merging of the Fraternal Tribunes with the American Home Circle and the wreckage of the former organization.

MURDER AND SUICIDE OF AN IOWA COUPLE

Man Kills Woman, Then Ends His
Own Life Last Evening—
Jealousy the Cause.

Omaha, Iowa, July 13.—John Kratz shot and killed Mrs. Agnes McCoy and then committed suicide last night. Kratz was infatuated with the woman, who resented his attentions.

Marriage License: A marriage license was issued to Fred B. Wheat and Myrtle L. Merkle, both of Beloit.

DEMOCRATS SELECT A STATE TICKET AT MILWAUKEE MEETING

Convention Picks Candidates and
Adopts Platform, Adjourns at
One This Morning.

Milwaukee, Wis., July 13.—The democratic state convention adjourned at one o'clock this morning after electing an entire state ticket and adopting a platform. The ticket follows:

U. S. senator, Durt Williams, Ashland; governor, A. J. Schultz, Milwaukee; lieutenant governor, M. J. Scholoy, Kenosha; and H. W. Nolens, Port Washington; secretary of state, George W. Thorsen, Dodge county; and John M. Callahan, Oshkosh; state treasurer, E. C. Zimmerman, Wausau; insurance commissioner, John Haselwood, Jefferson; attorney general, John Dougherty, La Crosse.

FOND DU LAC MEETING HEARS MANY PAPERS

Wisconsin League of Municipalities
Listens to Interesting Discussions.

Fond du Lac, Wis., July 13.—The Wisconsin League of Municipalities devoted its time today to a discussion of three papers. The first was on "The New Street Paving Law and Its Operation," by City Attorney T. P. Silverwood of Green Bay. Another paper was on "The Permanent Paving of City Streets As Affected by the Presence of Street Railway Tracks," by Fred G. Simmons of Milwaukee. "Concrete Pavements" was the subject of a paper by J. S. McCullough of Fond du Lac. At tomorrow's session the league will likely endorse its home rule for cities of all classes and also condemn the Wisconsin system of railroad taxation. The next convention will likely be held at Superior. This afternoon the delegates visited the state prison at Waupun.

MEAN TO FIGHT THE INJUNCTION SUITS

State Board of Agriculture Holds In-
teresting Session in Madison
This Morning.

Madison, Wis., July 13.—The state board of agriculture, at its session today, is closing a contract with Henry Oldfield, the famous automobile speed king, to exhibit his racing car at the state fair and to take part in a five mile race against an aeroplane. Steps were also taken by the board to meet the injunction of T. A. Seney, relative to the location of the new speed burns at the state fair park. The contract will be changed to conform with the statute, and after the hearing on the injunction, work will be resumed, and it is freely predicted the burns will go up on the original site.

ALL CORPORATIONS COMPLIED WITH LAW

Western District of Wisconsin Is Up
to Time on Its Reports to
Government.

Madison, Wis., July 13.—All corporations in the western district of Wisconsin have complied with the corporation tax law and the payments have been made in full in all cases although some of them—yes, nearly all of them—were under protest. But they have paid, and we were not compelled to send marshals after any of them. Internal Revenue collector F. T. Dentley made this statement today.

WARRANTS WILL BE ISSUED THURSDAY

Detectives Working Among Oshkosh
Saloonkeepers Find Violations
of the Law.

Oshkosh, Wis., July 13.—Detective Hammond of the Appleton detective agency, working with the Anti-Saloon league here, announced today that thirty-five saloonkeepers may be arrested tomorrow on charges of violating the excise law. He will be the complainant himself.

ELKS ARE HOLDING COMPETITIVE DRILL

On the Belle Isle Commons Near De-
troit Today—Session of Grand
Lodge This Morning.

Detroit, Mich., July 13.—Interest in the Elks' reunion today centered chiefly in the competitive drill contests held on Belle Isle commons. The grand lodge held a brief business session this morning adjourning early to permit the members to enjoy the several features of entertainment scheduled for the afternoon.

TELEPHONE MEN IN BIG ORGANIZATION

Fifty Companies Represented at the
Gathering in Madison Today—
Officers Elected.

Madison, Wis., July 13.—Representatives of fifty telephone companies operating in Wisconsin met on Wednesday for the purpose of organizing what is to be known as the Wisconsin State Telephone association. A temporary organization was perfected with J. A. Pratt, Menomonee Falls, president; and Paul Weirich, Monroe, secretary; and a draft of a constitution was offered for consideration.

LAWYERS FROM WHOM PRESIDENT MAY SELECT JUSTICE.

Washington, D. C., July 13.—As the result of the death of Chief Justice Melville W. Fuller of the United States supreme court, President Taft has in his power to practically reorganize this high tribunal influence upon the destiny of the country.

Since President Taft took office three vacancies have occurred through the deaths of Associate Justices Rufus B. Peckham of New York, Associate Justice David J. Brewer, and Chief Justice Melville W. Fuller. In addition to this the early retirement of Associate Justice W. H. Moody is looked for and of Associate Justice John M. Harlan, who is 78 years of age.

It is generally conceded that President Taft will elevate Gov. Charles E. Hughes to the position of chief justice to succeed the late Melville W. Fuller.

Lloyd W. Bowers of Chicago is looked upon as the most likely candidate to succeed Governor Hughes on the bench when Hughes is made chief justice.

The death of Chief Justice Fuller leaves the Democratic party represented by only two members, Associate Justice White of Louisiana and Associate Justice Lurton of Tennessee. President Taft realizes it is important not to make the bench too one-sided politically.

It would not be surprising should he finally select either John J. Ventres, who was Ballinger's counsel during the congressional inquiry into the Pinchot charges, or former Judge Alton B. Parker of New York, who was the democratic candidate for the presidency in 1904. George Gray of Delaware undoubtedly would be named if he were younger. Other men mentioned for the bench include: George

W. Wickersham, attorney general of the United States; Secretary of War J. M. Dickinson, Henry M. Hoyt of the state department, Lewis Marshall of Cincinnati, Judge Sanborn of St. Paul, Judge Adams of St. Louis, Judge Hook of Leavenworth, Kan., and Chief Justice Deems of the Iowa supreme court.

No office in the United States is more powerful than that of the chief justice of the supreme court so far as concerns its influence upon the orderly progress of the nation. Few presidents have had the opportunity to appoint a chief justice and none have had the chance which has come to President Taft to reorganize the supreme court. Up to date there have been only eight chief justices of the United States. They were: John Jay, John Rutledge, Oliver Ellsworth, John Marshall, Roger B. Taney, Salmon P. Chase, Morrison R. Waite and Melville W. Fuller.

FIVE KILLED BY SUDDEN EXPLOSION OF BALLOON BAG

Ersloech, Winner of International
Race at St. Louis and Four
Others, Killed.

Lehigh, Pa., July 13.—Oscar Ersloech, a German aeronaut who won the international balloon race at St. Louis in 1907, and four companions, were killed today when the dirigible balloon, Ersloech, burst at a height of several hundred feet and dropped to earth a crumpled mass.

The cause of the accident is a matter of conjecture, but it is believed that the bursting of the bag was due to expansion of gas by warm sunshine. The wreckage fell so heavily that the gondola was broken to bits and the motor was buried in the ground. The victims were frightfully torn.

An examination of the wreckage showed the benzine tank had burst, tearing the rubber envelope directly above it. The destruction of this envelope caused the bag to collapse. The stern compartment was still filled with gas when it struck the ground. The aviators' bodies were terribly mutilated, their heads being battered in and every limb broken.

SOLVE MYSTERY OF MONDAYS SHOOTING

Three Men Tried to Rob Cooper, Who
Killed One and Wounded
Another.

Chicago, Ill., July 13.—The mystery in the shooting of Raymond Mahany by Elmer Cooper on Monday, was solved today according to the police, by the confession of Theodore Burgess, who declared Mahany, John Rush, brother of Cooper's sweetheart, and himself lay in wait for Cooper and attempted to rob him. Burgess was wounded by a bullet from Cooper's revolver and was today treated to a physician's office. Mahany was killed by Cooper.

DAUGHTER KILLS FATHER'S SLAYER

Black Hand Agent Murders New Or-
leans Italian and Daughter
Exact Vengeance.

New Orleans, July 13.—A daring attempt of the Black Hand agents in New Orleans to secure money resulted today in the death of John Manzella and Joseph Stikula, the latter known as an agent of the secret society. Manzella's daughter rushed from her home and shot Stikula to death after he had killed Manzella.

SPANISH TROOPS AT GUARD ON FRONTIER

Will Prevent the Refugees From Cross-
ing the Boundary With
Arms.

Madrid, July 13.—Spanish troops are being concentrated in the province of Valencia in preparation to move into Catalonia because of the reported intention of the Spanish refugees to cross the French frontier with arms.

ROOSEVELT WILL ENTER CAMPAIGN

Announcement Made That Ex-Presi-
dent Will Work in Massachu-
setts Next October.

Boston, Mass., July 13.—Theodore Roosevelt will enter the Massachusetts campaign in October. This announcement was made here today by the Republican Club of Massachusetts.

JOSHUA M. OWEN OF EVANSVILLE IS DEAD

Former Proprietor of Commercial
House and Early Resident of
County Passed Away
Tuesday.

Evansville, Ind., July 13.—Joshua M. Owen, a pioneer settler of Rock county, died yesterday as the result of a hemorrhage of the brain, which he suffered on Friday. Mr. Owen had been proprietor of the Commercial House property for over thirty years. He was born in Orange county, New York, July 8, 1832, and came to Wisconsin in 1851. For 20 years he conducted a general merchandise business in Footville and then operated what was known as the Owen Mill, in the farming section near here. He later bought the Commercial House and was in charge of the hotel until a year ago, when he sold his interest to William Meggott. Mr. Owen's wife, whose maiden name was Miss Margaret Smiley, died in August, 1906. Four sisters, Mrs. Nettie Horton of Evansville, Mrs. E. E. King of Michigan, Mrs. L. W. Palmer of Footville, and Mrs. Spurr of Chicago, survive him. The funeral will be held at the Commercial House at two o'clock Thursday afternoon.

WOMEN PHOTOGRAPHERS HOLD THE CENTER OF THE STAGE

Madison, Wis., July 13.—The women held the center of the stage at the National Photographers' convention this morning. Addresses were made by Miss Mary Cornell, president of the Federation of Women Photographers and by Miss Lena McCauley, art critic of the Chicago Evening Post. She said that woman's place in the world of photography was assured.

HOT POLITICAL FIGHT IN TEXAS

FOUR ENTRANTS IN RACE FOR
GOVERNORSHIP

PROHIBITION THE ISSUE

Bailey and His Cohorts And Two Of
The Candidates Are Lined Up
With Liquor Interests.

Austin, Texas, July 13.—The campaign for the democratic gubernatorial nomination, which has kept all Texas in a political turmoil for many weeks, entered upon its final stage today. Ten days hence the contest for the governorship and for other state offices as well will be decided at the general primary election. With the many candidates for office on the stump, together with Senator and all the other prominent party leaders who are interested in the outcome a whirlwind finish to the campaign is promised.

The campaign has been one of the most partisan in the history of the Commonwealth and has attracted wide attention because of the unusual bitterness of the contest for the governorship and also from the fact that the question of prohibition has been the leading issue in the fight.

There are four leading entrants in the gubernatorial race, namely: William Polk, Robert Vance Davidson, O. B. Colquitt, and Cane Johnson. A fifth entry, James Martin Jones, is not expected to cut much figure in the result of the contest.

A significant feature of the campaign is the attitude of the different candidates toward the business element. The support of the latter is being openly invited by all of the candidates. All of them stand for the continued growth and prosperity of the state. No outcry against social-aggression of capital has been raised. Some of the candidates have attacked the trusts or the railroads as in previous campaigns.

There is no radical difference in the platforms of the four men who are waging a fight for the prohibition question. Polk, Davidson and Johnson are expected to divide the prohibition vote while Davidson and Colquitt are looked upon as the standard-bearers of those opposed to State-wide prohibition.

While the prohibition question is still the overshadowing issue, Senator Joseph W. Bailey is considered an important factor when it comes to the support that the different candidates are receiving. Sen. Bailey has allowed the impression to become prevalent that he prefers the nomination of Mr. Polk, but he is openly declared that Polk is not his choice. On the other hand it is placed in the race for governor at the instance of Senator Bailey, for the purpose of dividing the prohibition vote and to insure the election of Mr. Colquitt. It is conceded therefore that the vote of the Bailey followers will be divided between Polk and Colquitt, accordingly as the voter leans toward prohibition or anti-prohibition. In the same manner the anti-Bailey vote is expected to be divided between Johnson and Davidson.

In addition to the governorship the coming primary will decide the nomination for lieutenant governor, attorney general, controller, commissioner of the general land office, State treasurer, railroad commissioner, State superintendent of public instruction, commissioner of agriculture, judge of the court of criminal appeals, and associate justice of the supreme court. There are spirited contests on for nearly every place on the ticket, the candidates for lieutenant governor and controller being especially numerous.

Besides the various State offices an entire delegation of 16 representatives in Congress is to be chosen at the primaries. The majority of the present members of Congress are candidates for re-election and most of these have no very serious opposition for re-nomination. Congressman Sheppard, Hardy, Moore, Burgess, Burleson, Henry, Smith, Slayden and Garner have no opponents in the primary. Gordon Russell, of the Third district, has been appointed United States judge, and he is the only member of the delegation not a candidate for re-election. Congress Beall, of the Fifth district, has a very active opponent in the person of Dallas Congressman Randall, of the Fourth district, who has a hard fight on his hands. The same situation faces Simpson in the Third district, Dick of the Second, Greer of the Seventh, Gillespie of the Twelfth, and Stephen of the Thirteenth district.

The next legislature will elect a United States senator to succeed Charles A. Culberson, whose term will expire next March. The senatorship will therefore be included in the primary vote. Senator Culberson will be a candidate for another term. No other nomination will be placed on the ballot, and Mr. Culberson's nomination is assured. As the State legislature will be overwhelmingly Democratic, this means the return of Mr. Culberson to the senate.

JEFF CONSULTS TEX RICKARD MAY BATTLE JOHNSON AGAIN

Defeated Pugilist Holds Conference
With Promoter and May Try a
Second Time.

Los Angeles, Cal., July 13.—It is the opinion here that Jeff Rickard will re-enter the ring as a result of a conference today with Tex Rickard.

PLAINVIEW, TEXAS, LAYS COLLEGE CORNERSTONE

[SPECIAL TO THE GAZETTE.]

Plainview, Texas, July 13.—The cornerstone of the Wayland Baptist College was laid here today with interesting ceremonies conducted under the auspices of the Masonic lodge, Jewell P. Lightfoot, Attorney-General of Texas, delivered the chief oration.

SEASON'S
END

leaves us with many broken assortments. We now wish to close them out entirely and offer them at very low prices. Girls, 2½ to 6, regular \$2.50 and \$3.00 value, \$2.00.

D.J. LUBY

THE HOUSE-DRESS

are: \$1.00, \$1.25 and \$1.50. Sizes up to 46.

HALL & HUEBEL

The La Moines

Novelty Musical Artists
at the
LYRIC THEATRE

The La Moines present a novelty musical act, introducing trumpets, trombones, violins and a one-string instrument which is above anything of its kind ever produced at this theatre. The most remarkable feature of their act is an imitation of Kingbirds' animal show at feeding time. Mrs. La Moines cleverly imitates the birds and smaller animals, while Mr. La Moines rears like a lion, hyena, hippopotamus and other larger animals. The lights are turned out to heighten the effect and the light between the wild animals goes on with appalling reality till the animals are subdued and the lights are again turned on and the audience is reminded that it was only an imitation. The La Moines will be at this theatre Friday and Saturday only. Do not miss to see them. Two reels of the best Motion Pictures. Two illustrated songs by Mrs. Knoff. This is the coolest theatre in town. Come down Friday or Saturday evening and enjoy yourself at small expense.

LYRIC THEATRE

THE THEATRE BEAUTIFUL.

Wireless and the Railroads. The Electrician states that the Pennsylvania railroad officials are still making experiments with wireless telegraphy with a view to accomplishing its efficiency for railroad work. The most in use for the tests is erected near Altoona, on the mountain, at a point 1,855 feet above the sea level, the receiving apparatus itself being 1,725 feet above the level of the ocean. Communication already has been established with various wireless stations along the Atlantic coast, as well as with various vessels at sea.

The Obliging Proprietor. "Won't you please give me an order," pleaded the persistent drummer. "Certainly," replied the crusty proprietor. "Get out!"

Link and Pin

FARMER ALSO HAD A NARROW ESCAPE

Accident at Railroad Crossing Near North-Western Yards Nearly a Double Tragedy.

According to members of the switching crew who witnessed the accident at the crossing near the new yards yesterday morning, a double tragedy was narrowly averted as a farmer, driving a team of mules hitched to a load of hay managed to pull across the track just in time to escape the train. He also was unaware of the approach of 521 but was warned by D. B. Griffin, whistled up his team and crossed in time although his wagon was broken in the swift run over the tracks.

Neither the engineer or fireman on the passenger train saw the carriage in the road as it stood to the left of the track and the fireman was busy shoveling coal. The switching crew, however, saw the dangerous position in which Mrs. Huggins and her daughter had placed themselves and the engineer whistled repeatedly but in vain. Several members of the round house force, who happened to be standing near the oil house, also saw the accident. They state that Engineer Cole whistled for the crossing and that the bell was ringing when the engine struck the carriage.

A searching inquiry was made this morning by company officials and Engineer Cole, the fireman and members of the switching crew in charge of engine 107 told what they knew of the accident.

CHAMPION ROUNDHOUSE SPRINTER UPHOLDS HIS RECORD IN HARD RACE

H. Stone Defeats Aspirant For Honors and Side Bet—Race Has Unusually Exciting Ending.

Harold Stone has long been considered the champion sprinter of the roundhouse force but he was hard pushed for his laurels yesterday in a handicap race with Assistant Storekeeper Frank Hennessey as an opponent. Had the race been around a baseball diamond, Hennessey might have had a show for he has Ty Cobb faded in base running, but it was around the house and Stone ran as though Jack Johnson was at his heels. Hennessey tried to acknowledge defeat so pretentiously to become confused and took a flying leap into the round house pit. The race was given to Stone who also collected the side bet (a more difficult feat than winning the race) but is still waiting for the championship belt.

Through the efforts of Yard Master Burns, the switch shanty at the five points is being repaired. A new floor is being laid and two benches will be constructed while the doors, windows and interior of the structure will also receive attention.

Engineer Goodland and Fireman Hackshaw relieved Engineer Cole and Fireman upon the arrival of 521 at Jansville this morning.

Engineer Wilson took L. Goodland's place on the half and half today and Fireman Frank Dooley has the latter's place on the night dispatching job.

Machinist Michael Mullin of Chicago has taken Frank Pohl's place at the roundhouse.

Conductor J. J. Dulin is taking his annual vacation. Conductor Ruggles has his place on 528 and 529.

Switchman J. E. Behrendt is relieving Vernon Fraunfelder on the seven o'clock engine.

Engine 153, which has been in the house for the past three weeks for repairs, has been finished and was double-headed to Chicago this afternoon.

Chicago, Milwaukee and St. Paul WORK ON INSTALLING STEEL SMOKE STACKS WAS FINISHED TODAY

Each Ninety Feet in Height—Made Up of Two Sections, Each Weighing Three and a Half Tons.

Bridge Foreman Wilcox and his force of men have completed the work of installing the two steel smoke stacks at the round house. The stacks which are 90 feet high, were raised in two sections, each section weighing three and a half tons. Much difficulty was experienced in placing the second sections as the cable had to be fastened near the middle in order to raise the lower ends to the tops of the first section. For this reason, work was delayed in the wind was too strong to permit of the steel being raised for several days. Two sets of steel guys are needed to hold the stacks steady. The scaffolding and temporary crane used in the work was torn down today.

Machinist Thos. Howe has returned after spending a ten day vacation in Winnebago county.

Engineer Cummings and Fireman Brummel had 105 today in place of Engineer Gregory and Fireman Machinist.

Switchman John Murphy has returned to work after a three weeks' layoff.

REFEREE HENDRICKS FOUND FOR DEFENDANT

In the Action Brought by J. J. Cunningham Against Paul Gehrk.

Attorney Claude J. Hendricks, who was appointed by the court to act as referee in the suit brought by Atty. J. J. Cunningham against Paul Gehrk for some \$200 attorney's fees, has filed a report wherein he finds that all the services rendered for the defendant by the plaintiff were paid for. A motion to have the report confirmed will be made before Judge Grimm. Attorneys Charles Pierce and O. A. Oestreich represented the plaintiff and Atty. E. H. Peterson, the defendant.

Real Estate Transfers.

Oliver D. Howard et al to J. C. Williams et al \$1,000; pt. 204 sec. 27-13.

Joseph G. Smith to Louis Mitchell, \$7,000; nw¼ sec. 21, 22 and 23, 24 and 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Edward Daley to Mary Daley, \$1,000; lot in sec. 28-14, and other land.

POLIO MYELITIS DEVELOPS HERE

Jansville Has Case of Dreaded Infantile Paralysis and There Are Signs of Epidemic.

An epidemic of some fifty or sixty cases of acute polio myelitis, sometimes called "infantile paralysis," among the infants of La Crosse, received considerable attention in the newspapers last autumn and was widely discussed by the medical fraternity.

The disease, which in some of its manifestations is akin to spinal meningitis, has made its appearance in Jansville. A little two and a half year old child who was brought here from Chicago some weeks ago and who is at present being treated at a home in the Fourth ward, is the victim.

Observations of this case show that in the beginning it is very difficult to differentiate the symptoms of the malady from those of common ailments. It starts in with both stomach and bowel trouble, fever, and vomiting. According to authorities on the disease, it is in a measure contagious. The germ is supposed to pass from the bowels through the body to the spine. Children from one to five years of age are susceptible.

In the local case twitchings of the muscles were noticeable on the second and third days. The child presently lost the use of a group of muscles controlling one of the limbs, then the other groups; and total paralysis ensued. After the paralysis had been complete for a time, the little sufferer's condition began to show slight improvement. Some of the muscles will be permanently atrophied but a partial recovery is possible. It may mean untiring massage treatments and proper food and ventilation, of course, over a period of a year to restore anything resembling the normal condition.

"We'll have more of these cases and I hate to see them," said the physician who was discussing the matter. "The most remarkable epidemic of this disease, so far as I know, was the one at Rutland, Vermont, in 1894, when there were 119 victims—all children under six years of age."

The only known precaution is to spare no effort to keep the children's general health in the best possible condition.

BRODHEAD.

Brodhead, July 12.—Mrs. A. C. Penhertly had a stroke of apoplexy on Monday afternoon which has left her practically helpless. This is the second stroke she has suffered and serious results are feared.

Mrs. C. C. Stone went to Stoughton on Tuesday for a short stay to rest and recuperate.

Mrs. S. T. Crandall and daughter, Fern, returned on Friday from a visit of some days with friends in Milton Junction.

Mr. and Mrs. Wm. Cortelyou returned on Tuesday from their visit with the family of Mr. and Mrs. H. C. Moore in Salem, Missouri. They were accompanied by Misses Maggie and Helen Moore who will spend some time here visiting their many friends.

Dr. E. W. Fairman was a Jansville visitor on Monday.

Dr. Rowe left on Tuesday on a trip through the states of Idaho, Arizona and Washington.

Union church services in the city park on Sunday evening.

Miss Belle Fleck left Tuesday for a brief visit in Chicago.

Miss Mildred Gipe of Monroe, was a Brodhead visitor Tuesday.

Major C. C. Stone, who was taken suddenly ill a few days since, is improving nicely.

Jesse Miller is clerking at the Terrell-American Department Co.'s store.

Advertising is an insurance policy against forgetfulness. It compels people to think of you.

BUTTERMILK NOT TO BE SOLD IN MONROE

Drug Stores Prohibited From Selling Product of Milk Taken From Untested Cows.

(SPECIAL TO THE GAZETTE.)

Monroe, Wis., July 13.—On account of not being up to the milk ordinance health officer Gungl has placed a ban on the selling of buttermilk at the soda fountain and other places where the article has been on sale. An investigation was made into the product and it was found that the buttermilk was shipped here from neighboring creameries that are supplied by untested herds, and hence did not meet the requirements of the milk ordinance now in effect in this city. The doctors are now hunting for creameries that get their milk from tested herds and do not expect to be long without this beverage.

Circus Coming.

Miller Brothers' Wild West show has been booked to appear here on Tuesday, August 30, 8. 11. P. M. The show here. They come direct here from River View park, Chicago, where they will have an eight-days' engagement. Advertising car No. 1 will be here on August 9.

Youngblood Taken to Waupun.

Charles Youngblood was yesterday taken to Waupun prison. The family will be taken care of by the state. The authorities are making arrangements to have the children committed to the state home at Sparta and the older girl will be sent to the home of correction. Mrs. Youngblood and the two boys remained in town and it is said that the boys will also be taken care of. The oldest daughter, Mrs. Howard Smith, on whose statement her father was committed to prison, took the morning train with three younger sisters, and as soon as she arrived there was taken into custody by officers there, acting upon instructions received from authorities here. Deputy Sheriff M. C. Durst returned with her last evening.

Local Items.

The delivery horse driven on Young & Co.'s wagon ran away yesterday morning, taking a spurt from the west side of the square west to the brewery. There it jerked loose from the wagon and was caught a couple of blocks away. No one was in the rig at the time and the only damage was the breaking of the thills and harness.

J. H. Eaton has returned to Monroe for a few days. He is now an officer in the Salvation Army and wears the uniform of the army. Mr. Eaton has just returned from investigating the prohibition question in the states of Ohio, Michigan and Indiana.

Frank Honeywell arrived from Chicago last evening to spend his vacation with his parents, Mr. and Mrs. J. D. Honeywell. He is employed as reporter with the Chicago Press association.

E. H. Gloege is attending the Photographers' Association of America in Milwaukee this week.

Bert Markel was here for a short time on his return to Davis, Ill., from San Diego, Cal., where he spent the past two years for his health. The trip was made here with a party of six in an automobile. Mr. Markel will return in about three weeks for a stay of some length with friends.

Miss Emma Assmus has returned from Fremont where she recently graduated from a nurses' training course at the White sanatorium.

Scenting of Toilet Soaps.

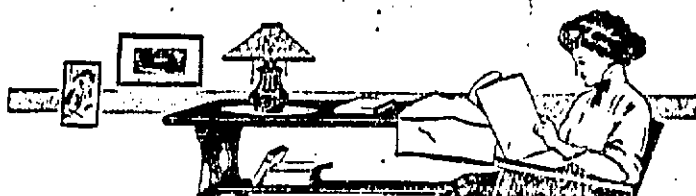

Many toilet soaps are scented with the oil of petitgrain, which is distilled in Paraguay from the leaves of the wild bitter orange trees.

Peasant and Courtier.

The age is grown so puffed that the fool of the peasant comes so near the heel of the courtier he calls his pike, Shakespeare.

the Backslider.

Backsliders stink like swags, but never make honey, like bees.—Dr. Knox.

Spend Less Time In The Kitchen

Let the "Caloric" Do Your Cooking

THERE'S absolutely no need of spending so much time in the kitchen preparing the three daily meals. You can just as well have more time for other, more important things. By the ordinary method of cooking you spend fully two-thirds of the day in the kitchen. This is entirely unnecessary if you will use a

Caloric Fireless Cookstove

It cooks better, with absolutely no attention, cooks more thoroughly—more appetizingly; retains all the goodness—all the tissue and strength building qualities of the foods. None is lost by evaporation in boiling away. No unpleasant cooking odor, no burning or scorching.

The less expensive and toughest meats are cooked far better and more tender by the "Caloric" method. The "Caloric" not only boils and stews but it bakes and roasts, even better than can be accomplished by any ordinary stove and costs less to operate.

We carry a full line of kitchen utensils and house furnishing hardware.

Nine Pins. The game of nine pins seems to be a variation of the old game of skittles, or bowls, which latter is, however, usually played in America with ten pins arranged in the form of a triangle, and the missile used is a round wooden ball, instead of the flat cheese-shaped object used in skittles. The game seems to be of ancient German origin, and to have come from Germany to the Netherlands, England and France. It is described by Hugo von Trimberg, rector of a monastery at Bamberg in the second half of the thirteenth century. (where there were only three pins). The old English game was called Kalls (in Scotland Kyles—both derived from the German Kegel), and was played, not with a ball or disk, but with a short club—according to Strutt, with a "sheep's leg bone."

Gets Stinger With Age. No man who has made money gets courage enough to relinquish it voluntarily; he gets stung as he gets older.—Joseph Fels.

WHY MR. MERCHANT Should You

GUESS each night as to how much money you should have in your cash drawer?

WHY GUESS whether or not there has been any mistake made in making change during the day?

WHY GUESS whether or not any money has been paid out without having been recorded?

WHY GUESS whether or not there has been any goods sold in credit and not charged?

Why Guess whether or not any customer has paid money on account during the day without having received proper credit for same?

AND ABOVE ALL WHY

Place unnecessary temptation before your employees?

The open cash drawer has no excuse for existing in this enlightened day. No business man can defend it, and it is a standing invitation to your employees to help themselves, virtually saying help yourself.

It Never Will Be Missed! It Never Will Be Missed!

The open cash drawer has started many a youth on the downward path.

Some merchants who oppose the saloon still continue to use the open cash drawer, thereby placing unjust temptation before their employees.

Open cash drawers and liquor have ruined many a youth and of the two evils the open cash drawer is a close second, if not first in the race.

Now, Mr. Merchant, a modern cash register which will PROTECT YOUR CUSTOMERS AGAINST ERRORS—and remove temptation from your clerks may be purchased for \$125.00 less 5 per cent for cash, or on easy monthly payments which you will not miss, and which a Modern National Cash Register will save you.

Think this over, Mr. Merchant, \$125.00 on interest at 6 per cent will earn you but 2c a day.

Why not have a register and do business in a systematic manner?

Mr. John Wannamaker, the world's greatest merchant, has said: "I never guess about anything that I may know for a positive certainty."

Mr. Merchant, you are certainly interested in this proposition, so why not drop me a card signifying your willingness to learn more about Modern National Cash Registers at reduced prices and of the great benefits to be derived from using one or more? By so doing you will not place yourself under the slightest obligation to buy. Write the card now.

Yours Truly,

A. M. Lockard, Jr., Sales Agent
National Cash Register Co.
205 King St., Madison

Brittingham & Hixon Lumber Co.

QUICK DELIVERERS BOTH PHONES 117.

WE have taken over the coal business of Wm. H. H. Macloon and will handle the same high grades of Scranton coal that he handled and will also afford the same honest treatment in the matter of weights, grades, etc., that has characterized the Macloon business for years. Quick deliveries is our hobby in the lumber business and we will make it so in the coal business. Coal of all kinds. Let us fill your bin now.

THE UNTERFIERED.

Whoever picked out the date of July 12 for the democratic state convention had a purpose in his choice. To bring together what is left of the "unterminated" in Wisconsin, the majority of them Irishmen or descendants of Irish, on Orangeman's Day, was something of an experiment, but as one Senator of the democratic party said: "The day makes no difference—there will be a lively reaction anyway," and it was a lively reaction. It began yesterday morning and it finished up at two this morning when the convention adjourned also die.

From start to finish the wage of war was thrown down. The question of condemning the democratic members of the last legislature that walked out when Stephenson was elected senator, the question of county option, the question of state ticket nomination, who was to be the sacrifice for the United States senatorial fight—in fact every issue at stake, was bitterly fought over. There was not a moment from the time the state chairman read the call for the meeting until the gavel of the permanent chairman, W. F. Wolfe, declared the convention adjourned at two this morning that there was no something doing every minute.

While democracy may be on the wane in some sections of the state, if the concentrated energy displayed at the Milwaukee gathering yesterday could be equally distributed through all parts of the state the coming campaign would promise to be an old time affair with plenty of snap and ginger to it. It was concentrated enthusiasm, bottled up oratory for the past years let loose all at once and with it all the convention did much work and the results promise to help re-organize both the republican and democratic parties of the state and draw party lines closer to the lines where they existed before the era of reform broke them down.

Permanent Chairman Wolfe of La Crosse sounded the keynote of the whole question when he referred to the democratic who had supported reform in the past. He invited the insurgent republicans to unite with their democratic brethren and be democratic in name as well as actions. He urged democrats to stick by their party and not be led astray by false promises from false leaders. In his closing paragraphs he said:

"Many staunch democrats were led astray by the pretenses of so-called reformers. They did not know their people. The senior United States senator, for whom I have a great personal regard, was a halfbreed up to the election of 1908, and then he supported William Howard Taft with all the ardor and ability he possessed. He has done this in all his political career. There has never been a time, and I fear there never will be, when the republican party advocated the doctrine which he now advocates. He has never for a moment, however, permitted himself to get away from the republican party as an organization. Kicked out of its conventions and his doctrine scoffed at, he remains loyal for the purpose of party integrity."

"His leading followers are, and always have been, a class of office-seekers, and when their appetite for office could not be satisfied have abandoned him."

"Why should democrats forsake their party to follow his leading? There is not now, and there has never been, a time in the history of Wisconsin that the democracy has not numbered among its adherents the best men in the state. There has never been a time when the party has not stood for progress in legislation and for honesty, efficiency and economy of administration."

"I say there is no occasion, there is no excuse why the democrats of Wisconsin should not stand shoulder to shoulder and fight the common enemy, now as ever. The democrats of the state and nation are either right or President Taft, Aldrich and Cannon and their followers are right. There are but two great political parties, and democrats must determine to follow one or the other."

"And now, fellow democrats, let this convention in all its labors meet all issues squarely, openly and honestly, irrespective of the acts or actions of any party or faction within a party; let me admonish our people at the primaries to select men of known honor, probity and capacity as candidates for office. With an honest platform and high-toned candidates we ought and will command the respect and support of the thoughtful and virtuous people of our great commonwealth."

THE LATEST SCHEME.
Walter Wellman, journalist and Arctic explorer, whose latest undertaking to reach the north pole by balloon was abandoned upon the announcement of Commander Peary's achievement, in association with Melvin Vanhorn, who has had considerable experience in aeronautics, proposes to cross over the Atlantic ocean in a dirigible balloon at some time during the coming fall. The balloon to be used is the "America," which was built for the Wellman polar expedition. This powerful aerial machine has been subjected to severe tests in Spitzbergen and is said to rank second in size and general equipment to the latest Zeppelin airship. Presumably the voyage is to be made in the autumn, and the character of the craft and air is said to be as safe as far as human ingenuity at this time is capable of providing safeguards for such an enterprise.

Mr. Wellman has not been successful in his aeronautic undertakings heretofore. His apparent failures in the polar regions have been necessarily complicated. The very boldness of the projects upon which he has entered has seemed to invite, if not to excite, the criticism that followed each recurrent so-called success. But those who know Mr. Wellman best, and who have had opportunity of learning of the difficulties which he was forced to encounter, and of the skill and courage he has displayed in the face of apparently overwhelming obstacles, have been the most ready to extend to him material and moral assistance in every new enterprise he has planned.

There may be, and there probably is, considerable doubt existing today both as regards the feasibility of a balloon voyage over the Atlantic and the ability of Mr. Wellman, assuming it to be feasible, to bring such an enterprise to a successful conclusion. With regard to the first phase of this doubt, it is only necessary to recall that a flight by airship across the British channel was deemed impossible only a very short time ago; with regard to the second phase, the basis for it being the projector's former experiences, it cannot truthfully be said that a man who has risen superior to defeat as often as has Walter Wellman has ever really failed.

Somebody, some day, will succeed in carrying out an undertaking similar to that upon which Mr. Wellman proposes to embark. He may be the successful one.

Numerous complaints have been made of the loitering of young men about the streets nights and on Sundays, who insult women passing by with slurring remarks. The police are roundly censured for not driving them away and stopping the insults to the women that pass them. Perhaps the fault lies with this department, but perhaps if one probes deeper and the fire and police commission were to back up the chief in his efforts to preserve order, the mayor and council work in unison with him this and other abuses could be abolished without much trouble. At any rate Chief of Police Appleby should see that this nuisance is abated even if a taste of the hickory is necessary, and it is certain that the general public will be with him. Something must be done if Janesville is to expect much of its future generations.

Mayer Carlo struck the keynote when he stated that the council might well drop the suit before the railway commission in which the New Gas Light company is the defendant. It will be costly for the city if it is not dropped and the gas company has done more voluntarily than the com-

mission would have made them do if forced to by law.

By exonerating the chief of police from the absurd charges brought by the city attorney, the fire and police commission took a step in the right direction. The chief's statement to the commission of the existing conditions, as published last evening, shows that co-operation is needed in city affairs.

Why some property-owners in the city must mortgage their homes in order to pay the cement walks ordered and others escape without having any walks at all upon their property is one of the problems that makes the poor man think the rich man has the best of it every way.

Dirty alleys and untidy conditions that exist in many quarters of the city should be remedied at once. It is someone's duty to see that they do not exist and that official should take it upon himself to enforce the law.

It takes politics to really interest the average American even if he does "pooh pooh" at the idea he can be carried away by any such a trifle as the selection of an assemblyman or a sheriff, or district attorney.

That storm of yesterday hit the right spot. The only trouble was it did not last long enough. A day or so of good soaking would do the crops throughout the country much good.

The Gould weddings are in a class by themselves and their divorces are always in a similar class. If the light pictures must not be shown why not cut out all reference to these divorces in high life.

Heart to Heart Talks.

By EDWIN A. NYE.

HOW TO STAY YOUNG.

That grand old woman Julia Ward Howe is ninety-one years old, and at that age she is younger than some others at sixty.

Somebody once asked her how she managed to keep so young and vigorous, and she replied:

"By allying myself with some unpopular cause."

Which at the first strikes one as far-fetched, but there is in the statement a deep philosophy.

Those remain young whose minds remain young. The young mind looks forward into the future; the old mind looks back into the past. The young mind follows ideas; the old mind fondles memories.

Julia Ward Howe has kept young by facing the future and fighting in the van of progress.

For years she championed the cause of the abolition of slavery. When the slaves were freed she took up the unpopular propaganda of equal suffrage.

And there is Dr. Parsons of Chicago, who at ninety says he has been having more fun giving away his millions to deserving colleges than any millionaire of them all and that when he is dead there will not be a dollar left.

Dr. Parsons has a vision.

And white-haired Chief Justice Fuller sits in the circle of the big brains of the United States supreme court and, barring the white hair and mustache, appears as vigorous at seventy-seven as a boy.

He could retire at any time and still draw his pay; but, knowing that inactivity means stagnation and decay, he prefers to die in the harness.

Suppose Julia Ward Howe had gone wedding over her knitting, contenting herself with the retrospect of her successful work for the slave?

She probably would have died years ago or, if living, would be decrepit and senile instead of vigorous and budding.

March forward with your face to the rising sun! Cultivate the zest of going into battle for a worthy cause and forget the years that are behind.

Get yourself a vision.

And then, joining hand in hand with your select fellows, go, as do the little children, alms with enthusiasm and hope of realization.

That way lies youthfulness.

In the bright lexicon of enthusiasm there is no such word as age.

PRESS COMMENT.

Walter Wellman, not having figured largely in the public prints since he breakfasted with the colonel on the Nile, now announces that he will fly across the Atlantic ocean. And when he does it we shall believe it.—Milwaukee News.

Thirteen aviators have been killed while flying so far this year. The total number of "bird men" is small. Flying is the deadliest sport on record. Automobile racing, celebrating the Fourth, discovering the north pole and going to war are all safer. Like prairie fire, aviation is a discovery to be utilized gingerly.—Madison Journal.

The democrats seem to be having about as much trouble in branding their own as are the republicans. For instance, the Wausau Sun scoffs at the idea of the Madison Democrat being a real democratic paper and declares the Madison paper is in fact republican in spite of its name.—Oshkosh Northwestern.

From bleeding to beautiful Kansas is the transformation, we are told, that the Sunflower state is undergoing. With William Allen White to write its history and Walt Mason to write its poetry, Kansas is bound to rival Indiana in art. A few touches by the landscape gardener and the village barber and Kansas will become at once the most prosperous, cultured and finished community between Boston and Los Angeles.—Milwaukee Journal.

A New York dispatch states that eighteen crates of ice cream cones were seized on a North river pier, by the United States marshal, because they were found to be unfit for consumption. A dispatch from Butte, Montana, states that two children are dead and one is seriously ill as a result of eating ice cream in cones. It is evident that there must be water in the cones that is seeped in them daily by the ton, mostly in penny portions. The cones are being made to "keep" on the shelves of confectioners, and in some instances are probably as discolored as sole leather. But the water may reject the cone, if he blows, and still fall sick as a result of eating the ice cream, unless it is made in a cleanly manner and kept where it cannot absorb metallic or other poisons.—Milwaukee Wisconsin.

It must be gratifying to every patriotic citizen of the state to learn that the state park board has been able to secure the Devil's Lake region as a park to be preserved to the future generations of the state. This is a movement that has long been wished for by those who were aroused over the manner in which private enterprise was invading the places of beautiful scenery and despoiling them for commercial purposes.

Wisconsin is peculiarly blessed in having within its borders such scenery as that in the Devil's Lake region and in the Dells of the Wisconsin. Some times, very often, indeed, it is pointed out that residents of the state do not appreciate what lies at their very thresholds in the way of natural beauty. And it is doubtless a fact, that the day is coming when residents of Wisconsin will realize what a treasure they have. Then they will look back and bless us of this generation for every movement like the present one whereby some of this natural beauty is preserved to them rather than exploited and destroyed for a mere handful of dollars.—Beloit News.

Uncle Walt

THE POET PHILOSOPHER

By WALT MASON.

(Copyright, 1909, by George Matthews Adams.)

I worked with a pick and a shovel in strenuous seasons of yore; I lived in a tumble-down WEARINESS, hovel, and slept in some straw on the floor. And then in the morn, when I'd waken, and brush all the chaff from my head, I'd throw in an armful of bacon, potatoes and onions and bread; my hunger was wondrous and painful, the strangest of wonderful things; I poured down the grub by the handful, and chewed up the paper and strings, I labored with bricks and with mortar, I tumbled big holes in the soil; my wage was a bone and a quarter for every day's session of toil. I slept like a span of bay horses, I ate like a mule among hay; alas! I took to this craft, writing verses, and doubtless I'd write till I'm dead.

The "YOU'LL SUCCEED IN JANESVILLE"

Big Store J. M. BOSTWICK & SONS.

Thursday--Tomorrow--One Day Only

A SALE OF ALL OVER EMBROIDERIES

Begins at 8:00 O'clock

THIS is a sale of unusual importance. It is unique in the annals of All-Over Embroidery selling. We say "unique" because of the unusual savings made possible. Savings greater than you have ever heard of before. It is not a job lot sold low because of imperfections, etc. These All-Over Embroideries are perfect in every way, beautiful goods, on fine Swiss and Nainsook cloth, large variety of patterns. Some very dainty ones, others in lovely eyelet effect, while some are very open and lacy. You will say when you see them that we are not too loud in our praises.

LOT 1—Swiss and Nainsook All-Overs, excellent value any time at, and actually worth, 75c to \$1.00, Thursday's price, 50c.
LOT 2—Swiss and Nainsook All-Overs, finer than the above, the same grades usually sold for \$1.25 to \$1.75, Thursday's price 75c.
LOT 3—Swiss and Nainsook All-Overs, beautifully fine, very choice patterns; you would think nothing of paying \$1.75 to \$2.50 for them, Thursday's price \$1.00.

On Sale Thursday Morning at 8 O'clock

—One Day Only—

Carload of Texas Peaches Distributed in Janesville

EVERY GROCER HAS THEM—YOUR GROCER.

Today we received a carload of Texas Albartha Peaches direct from Jacksonville, Texas. They have been distributed to every grocer in the city. The Texas Albartha Peach is an excellent eating peach. This car is of A No. 1 quality.

We advise the early canning of peaches. Can now from this lot. The weather conditions have been very unfavorable. There may be plenty of Michigan peaches later, yet it is very possible that there may not be any, so we suggest that you can your peaches now.

You can get them in baskets, half bushels or bushels. Get them from your grocer.

We wholesale only.

HANLEY BROS.

California Rich in Oil.

In the last two years California, called the Golden state and the scene of more gold excitement than any other state in the Union, has produced greater value in oil than in gold. The value of oil to the producers themselves last year was about \$12,000,000, although positive figures are not yet available, while the production of gold in the neighborhood of \$21,000,000, or two and a half times as much, it must be understood, in no way aided by a falling off in the production of gold.

AL. SCHALLER MADE EXCELLENT SCORES IN FIRST ROUNDS

Janesville Player Hands in Score One Below Doggy in State Tournament

[By Associated Press.]

La Crosse, July 13.—The fastest play ever played in Wisconsin is being played today in the qualifying round for the state championship. The morning play returned thirteen scores of doggy or better with sixteen to qualify in the first flight. A score of 40, one lower than doggy, was turned in by A. Schaller of Janesville, and a like score was made by Harold Wreth of Fond du Lac.

In the play for the Yale cup yesterday by teams, the Janesville team was forty-seven down. La Crosse won the cup five down and Milwaukee Country Club was second with 25 down and Kenosha and Madison tied for third place with 20 down. The Blue Mound Country club of Milwaukee was fifth with 34 down, Racine sixth with 27 down, Fond du Lac seventh with 45, Janesville eighth and Sheboygan ninth and last with 51. The play this morning followed at four-minute intervals by the remainder of the entries. In all there are ninety entries entered.

Definite announcement was made on Tuesday of the proposed professional event. After the state championship is decided, there will be an open event for all the professionals of the state, to demonstrate to the golfers assembled here the difference between amateur and professional play. There will be a purse which the pros will be allowed to divide as they wish. It will be purely an educational feature, and may be arranged as an annual event to follow the annual state championship.

Although La Crosse won the Yale cup in a fair contest with a pretty score, it is only fair to call attention to the fact that two of Kenosha's strongest players, C. C. Allen and Chester Barnes, did not figure on the Kenosha team.

The golfers here believe that this was a demonstration of unusual sportsmanship and generosity on the part of the Kenosha men, for the La Crosse men would have met a difficult contestant if the Kenosha team had included these players.

MISS ROSS WILL CONTINUE WORK.

Will call at every home in the city in interest of Jersey Lily Flour.

There are so many good reasons why Jersey Lily flour should be used that when Miss Ross, the solicitor for Jersey Lily Flour, calls on the women of Janesville she has not only a delightful visit, but many of the women are actually glad to learn the many fine points in regard to the making of flour and how to use it to best advantage. Jersey Lily has been sold in Janesville for about 25 years and it has many ardent patrons. It is made in the heart of the wheat growing section of Minnesota, from the best hard wheat only and though it has never been extensively advertised, it has stood upon its merits. The price of Jersey Lily has been reduced to \$1.50 per sack during the next week or two, though the regular price elsewhere is \$1.65 per sack. In fact the wholesale price of flour has advanced 75 cents per barrel. If any woman has not at once, or an order may be sent to your grocer for a trial sack.

LOCAL PARAGRAPHS.

Up for Drunkenness: Henry Knox pleaded guilty to a charge of drunkenness in municipal court this morning and paid a fine and costs amounting to \$3. Dan Wilkins was committed to the county jail for five days.

M. E. Church Picnic: The Methodist church and Sunday school picnic will be held at Cold Spring park on Friday. The band will leave at the dock at 9:30 and 11:00 a.m. and at 1:30 and 4:00 p.m. There will be games and refreshments and a basket lunch. The entire congregation is invited to join in this annual outing.

Died in Rockford: Mrs. Francis Hennrich, 75, resided here on account of her occasional visits in Janesville, died at Rockford yesterday morning. Deceased was 75 years of age and cerebral hemorrhages were responsible for her death.

Publisher Here: O. R. Kuzak of East Troy, Wis., proprietor of the East Troy News, together with a party of fifteen from that town, spent a few hours in the city this morning. They are en route in automobile for Beloit where they will inspect the storage battery system at the Fairbanks-Morse plant with a view of installing a similar system in one of the East Troy factories if it has been proven successful in the Lake City.

Wheels Rolled: The stolen rubber wheel hogs which Chief Appleby caught for through the city yesterday morning came rolling into the police station early last evening. The property was originally stolen from Dr. Frank W. Van Kirk but the parties who fished them out of the river were entirely innocent.

NEW MEMBERS WERE TAKEN IN BY THE RELIEF CORPS

Six Initiated into the Corps at the Regular Meeting on Tuesday Afternoon.

At a regular meeting of the Woman's Relief Corps, Tuesday afternoon, after the business of the session had been transacted, six new members were initiated into the corps and tea and refreshments were served. The initiates were: Mesdames Edna Patterson, Catherine McDonald, Lillian Weaver, Barbara Gell, Nellie Mason, and Miss Mary Gage.

ILLINOIS ENDEAVORERS MEETING AT WAUKEGAN

(SPECIAL TO THE GAZETTE.)

Waukegan, Ill., July 13.—An enthusiastic army of Christian Endeavorers from every part of Illinois took possession of Waukegan today for the opening of the annual convention of their State organization. The proceedings will last four days and will include addresses by well known speakers and many other interesting features.

BRIEF PERSONAL MENTION.

John Wilbur, who had a limb broken while attempting to travel on a freight train from Minneapolis to Janesville was brought here from Madison yesterday and taken to the home of his grandmother on Prospect avenue.

Mrs. Joseph B. Doe and Arthur and Julia Doe of Oconomowoc, and Miss Hosen of Philadelphia arrived here in a touring car from Delavan lake yesterday and were guests at the home of P. J. Mount until this afternoon.

The Messers, Van Grove of Chicago, are visiting with Francis Conners. George H. Williamson departed last evening on a three months' tour of the northwest, Seattle, Spokane, and other cities of the west. In the interest of the Williamson Pen Co.

Mrs. H. J. Conlin of Chicago is visiting her sister, Mrs. J. J. Kelley, 15 Clatham street.

Miss Julia Gannon of Chicago is visiting her friend, Miss Beatrice Kelley.

Mr. and Mrs. L. J. Conlin of 26 Eastern avenue left last night for a three weeks' trip to Portland, Oregon, and other western points.

By M. M. Kennedy left yesterday for Byron, Ill.

Miss Nellie G. Conlin of 426 Eastern avenue, returned this morning from a two weeks' trip to De Kalb and Chicago.

Miss Beth Chittenden of Alton, Ill., is the guest of Mr. and Mrs. W. P. Palmer.

Mr. and Mrs. A. Lawson are at Mt. Pleasant, Mich.

Henry Hartig departed for Rockford on Tuesday morning to spend a few days with his brother, W. F. Hartig.

Mrs. G. W. Kennel and sons, Robert and Webster, have returned after spending a few days at Lake Geneva.

Mr. and Mrs. L. J. Conlin and John Hoffmann are among those from this city who are attending the National A. O. U. convention at Portland, Ore.

Mr. and Mrs. T. H. Howe of N. Jackson St., have returned from an outing spent at one of the small lakes near Oshkosh.

Mr. Harry Xavier of Our Lady of Mercy convent of Milwaukee spent Tuesday with her sister, Mrs. G. W. Kennel of this city.

Mr. and Mrs. H. Steckling of Lindenwood, Ill., were visitors here today.

Maney and Lawrence Caird of Monticello, transacted business here last night.

Mr. and Mrs. R. W. Patterson of Stoutland, arrived here on their honeymoon last evening and were registered at the Grand hotel.

J. P. Whitford of Milton is transacting business here.

Mr. and Mrs. Thomas J. Kelly and son of Rockford, were in the city last evening.

Mrs. F. M. Miller of Aurora, Ill., was a visitor here last night.

Miss Lucy Hartman of Endeavor, Wis., was in the city last evening.

J. A. Stimpfle who was operated upon for appendicitis at Mercy hospital yesterday morning is reported to be getting along nicely today.

MISS BESSIE CLEMENT MARRIED IN ROCKFORD YESTERDAY AFTERNOON

Janesville Young Lady Becomes Wife of Walter F. Holden of Baraboo.

Miss Bessie Clement of this city, daughter of Mr. and Mrs. Henry Clement, 223 North Franklin street, was quietly wedded at Rockford yesterday afternoon to Walter F. Holden of Baraboo, who is employed as telegraph operator at Janesville. The ceremony was performed by Rev. J. P. Abbott at the parsonage of the Sixth Street Methodist church. The wedding came as a complete surprise to the friends and relatives of Mrs. Holden as neither of the young couple divulged their plans, but left suddenly early yesterday afternoon for the Rockford city. They returned last evening and later left on a trip through the west.

Swift-Sneezaby.

A dispatch from Madison today states that a marriage license was issued this morning to Clarence H. Swift of Janesville and Myrtle H. Sneezaby of Madison.

Our Hot Weather Specials.

Continue until July 16th and include very low prices on underwear, gloves, hosiery, wash dresses, neckwear, ladies' waists and ready-to-wear garments. T. P. Burns.

NOMINATION PAPERS.

We have a supply of nomination papers ready for the immediate use of candidates for office.

CARPENTERS BUSY AT THE THEATRE

Old Floor and Stairways Are Being Torn Out—Seats Coming First Week in August.

Just a casual glance into the Myers theatre these days might almost persuade the chance wayfarer that a tornado had struck the interior of the auditorium, particularly the lower portion. A force of carpenters is at work tearing out the old floor and certain of the stairways and when their labors are completed there will be nothing left but a remembrance of the ancient floor and aisle and foyer plans.

The new flooring for the first three rows of seats will be four inches higher than the old, bringing the spectators' line of vision to a level with the stage floor. In the place of the old "terraces" there will be an elevated expanse of floor on an incline that will give every after the best possible view of whatever may be going on behind the footlights. Instead of dividing the seats into two sections with a center aisle, there will be three sections with two aisles radiating from the stage on a line with the pillars which support the balcony. The side aisles will be eight inches wider than heretofore.

The stairway to the gallery which now passes over the little toilet room just back of the orchestra circle will be entirely removed and an iron one on the outside of the building substituted. This will make it possible to move the balcony stairway which now passes a big "joist" in the foyer northward some seven or eight feet. Under this stairway will be constructed check and toilet rooms and a reception room with an exit to bluff street.

No row will contain more than eight seats and there will be no division line between orchestra and circle. The last row of the circle, on the west side will be removed and the roomy foyer created by these alterations will make it possible to empty the house in three minutes.

The seats will be 22 and 20 inches wide instead of 17 inches as heretofore and there will be six inches more room in front of them. The aggregate number on the main floor will be 410 instead of 441.

By installing three new radiators on the east side and a row of pipes in front of the orchestra pit, 1,600 more feet of radiation surface will be secured. Velvet carpets, new lighting fixtures, and a handsome brass rail for the orchestra pit will be included in the several thousand dollars' worth of improvements which will convert this playhouse into one of the most comfortable and inviting theatres in the northwest.

The floor will be ready for the new seats the first week in August and the theatre ready for business by Sept. 1 at the very latest.

MANY OUT OF TOWN GUESTS AT LINKS

Thirty-eight Partook of Weekly Club Night Supper and There Was Fair Attendance at Hop.

Thirty-eight enjoyed the weekly club supper given at the Shunslapd club last evening and there was a fair attendance at the hop for which Carter & Menzies' orchestra provided a pleasing musical program. The out of town guests included James C. Wilmarth of El Paso, Texas, Charles A. Schorberg and family, and Mr. Adams of Chicago; Mrs. Joseph B. Doe, Arthur Doe, and Miss Julia Doe of Oconomowoc and Miss Hosen of Philadelphia, Mrs. Alice Thomas of Franklin, Pa., and the Messrs. Florence L. McCormick and Grace Lyman of Beloit.

CLINTON.

Clinton, July 13.—Judge Grimm came down Monday morning to inspect the local glazing gardens of O. L. Woodward and O. H. Florida.

Frank Benedict is suffering with a very painful case of blood poison in his right thumb.

Will McKinley has bought Christ Holmstrom's auto.

Miss Elizabeth McGee was four years old Monday and to celebrate the event four little tots of the same age, with their mothers, were called in to make merry with her and a jolly good time was spent.

Mr. Haro of Horton, Wis., was here Monday looking over the drug stock of Mrs. D. C. Griswold, which he is thinking of purchasing.

Mrs. Ed. Hennrich left last night at midnight for Ladysmith, Wis., to visit a sister for a few weeks.

Harry Griswold and children of Beloit are visiting relatives and friends here.

The village marshal will again be a candidate for sheriff of Rock County on the democratic ticket.

Mrs. Esther Ellingson returned to her home in Rockford Monday afternoon. Miss Minnie Swanson accompanied her for a visit of a couple of weeks.

D. T. Homer will be a candidate for clerk of court on the minority ticket.

John Jacobson south of town is a sufferer with rheumatism, being confined to his bed for the past two weeks.

Miss Nettie Helbert of Rockford, is visiting friends here.

The annual meeting of the stockholders of the Clinton telephone Co. was held in the Y. M. C. A. rooms Monday afternoon and the old board of directors were re-elected.

Bertie Paul went to Prospect Monday to work for a couple of weeks.

Miss Gene Harlan went to Madison Monday to visit relatives.

Miss Gene Collier of Rockford, spent Sunday here with her cousin, the Messrs. Marguerite and Flora Collier.

Mrs. Minnie Mayberry went to Delavan lake yesterday morning to stay a few days.

Mrs. F. A. McAffee and daughter Loraine, went to Durban yesterday morning to visit a few days.

Mark Stewart and daughter of Palme, Minnesota, arrived yesterday morning to see his mother, brothers and sisters. He left his daughter here for a few days' visit while he continued on to Chicago.

The rain kept Clinton entirely, although a splendid shower fell as close as two and one-half miles north and south of here.

DEATH FOLLOWS SOON AFTER JAWS LOCKED

John Splitstoeser Dies After Three Days of Suffering With Terrible Malady.

Lockjaw, resulting from an open sore on his leg, is supposed to have caused the death of John Splitstoeser at the home of his sister, Mrs. Tobin, 223 North Franklin street, at three o'clock this morning. Three days ago the muscles of the jaw began to harden, but he endured the pain for two days, before consulting a physician, calling in Dr. G. W. Pf. field yesterday morning. The case was already so advanced that little could be done to save him as the muscles of the head and neck had begun to cramp and pull the head back and efforts were directed toward relieving his pain. Splitstoeser was fifty-three years of age and a native of Watertown, Wis. Besides the sister in this city, another sister, Mrs. Benjamin Waters of Madison, and a brother, Ernest, of Indiana, survive him. The funeral will be held at two o'clock tomorrow afternoon and the remains will be interred in Oak Hill cemetery.

Patriarchs Attention.

All members of Rock River Encampment No. 3, I. O. O. F., are requested to be present at East Side Odd Fellows' hall Thursday evening at 7:30 o'clock as installation of officers and other important business will be transacted. Remember, Thursday night, G. H. Webster, Sec'y.

GERMANY INTERFERES IN NICARAGUA.

View of Bluefields, Nicaragua, center of Nicaraguan dispute and trouble. Lower left, Kaiser Wilhelm, who has openly recognized the Madriz faction. At right, Secretary of State Knox, who will have a hard fight on his hands to prevent through diplomacy international dispute.

Washington, July 13.—The letter addressed to President Madriz of Nicaragua and signed by William I. of Germany, in which he calls him "agent and good friend," and virtually up-

down the passport to Uncle Sam, Germany is entering Central American and South American controversy holds the Zelaya regime, is interpreted as a very serious matter in diplomatic circles. By this throwing which have hitherto been delegated largely to the United States by international powers.

The letter was couched in an uncertain terms and unless pressure can be brought to bear through diplomacy upon Germany, only the most serious aspect to the whole affair is evident. In his stand, Emperor Wilhelm takes the diametrically opposite view of Nicaraguan affairs to that held by

Mr. Knox of the state department and diplomats generally. He acknowledges the election of Madriz as president of Nicaragua, which the United States state department has maintained was fraudulent.

The Victor in the Struggle.
Experience shows that success is due less to ability than to zeal. The winner is he who gives himself to his work, body and soul.—Charles Dutton.

Cotton for the Chinese.
The cotton cloth needed to clothe the inhabitants of China is about eight billion yards. This amount would carpet a pathway 60 feet wide from the earth to the moon, or cover one more than 20 miles wide from New York to Chicago.

Have you looked over the Want Ads.

ONCE SAVED LIFE OF C. D. NORTON, NOW SECRETARY TO PRESIDENT TAFT.

United States Delegate Ralph Cameron from Arizona.

Phoenix, Ariz.—Delegate Cameron is one of the many happy citizens of Arizona, who are wearing a happy smile these days because their state is to be admitted into the Union. An interesting yarn is told about Mr. Cameron in which President Taft is vitally interested, for had it not been for his assistance the president would

not now have the services of C. D. Norton as his private secretary. The incident occurred some time ago while Norton was on a hunting trip in Arizona. Norton had wandered away from the party and had not been seen by anyone during the entire day. As night fell much concern was felt for his safety, and searching parties were organized in an effort to locate him. The following day he came riding in to camp on a mule with Mr. Cameron as a guide, none the worse for his experience which might, however, have been fatal. Norton had become lost in the wilderness and only by the merest chance had Mr. Cameron happened to locate him and bring him safely into camp.

Rapine From Above.
To see murder and rapine in pure perfection one has only to visit some of the more solitary shores in the autumn when the tide is coming in and watch the fish hawks, those wolves and pillagers of the sea, and see for one's self how easily they hunt at heights and deliberately pick their prey. Not by any means do they nab the first too large or too little fish, but wait and pick out the very fellow the right size for flying away with. Scarcely every time they fall all in a bunch from a height of a hundred or more feet with a splash and are off with the poor wriggling fish—as easy as falling off a log.

Sparkling As Champagne

and as delicious in flavor in its way is a glass of our soda. Bring your best girl here and treat her to the product of our fountain. She will probably enjoy it even more than she would champagne and you'll enjoy paying for it a whole lot more than you would for the wine.

The Best Selected Hosiery Stock in the City

Our hosiery stock exemplifies the cash buying and cash selling principle. Right through the line you will find savings on each item, or you will find better qualities at regular price than elsewhere, and these advantages are here for you every day in the year.

Every little while we make extra sale prices for quick clearance, in order to close out odd lots, or to make room for new goods, and the two specials above are examples of how interesting we make them. Another rare good bargain we offer right now is

Ladies' 25c Embroidered Hosiery, black, an extra good value at 25c, now 19c

Our regular stock is probably the best selected and best qualities for the money in the city. It includes everything in black for ladies, misses and children, also

LADIES' WHITE HOSIERY in plain lisle or lace styles; **LADIES TAN HOSIERY** in plain lisle or lace styles, two excellent lines at 25c and 50c.

Children's Hosiery in Unequaled Lines

The Black Cats Hosiery, the Elf Hosiery and the Burlington Hosiery, are included in our showings. You will find our grades particularly strong in the 10c, 12 1/2c and 15c, as well as the 25c lines.

Light blue, light pink and white Hose for children in both ribbed and lace styles.

MEN'S FAST BLACK AND TAN SOCKS, good strong values 10c, 12 1/2c, 15c and 25c.

DEFECTS IN ARMOR OF TWO NEW BATTLESHIPS SERIOUS.

At top, two of Uncle Sam's largest and latest battleships, the North Dakota, (at top) and the Utah (at right). Secretary of Navy George L. Von Meyer.

Washington, D. C.—Defects discovered in the armor of the battleships North Dakota and Utah are causing the navy no little concern and will cost someone about \$20,000. It was while determining who should pay this expense that the true state of affairs was made public. Representatives of the New York Ship Building company, the Midvale Steel company and government

experts have been engaged in attempting to place the blame for the defective armor.

The trouble is what is technically known as spalls, a flaky condition that impairs the armor's resistance to enemy shells. It was found on the plates of both of Uncle Sam's latest dreadnoughts and fifty tons of armor, representing approximately \$20,000, have

been taken off the two boats and replaced with new plates. This was done so quietly that little was known of it outside of naval circles, and the North Dakota is now in New England waters in commission again with the defective plates replaced. The Utah is still in course of construction at Camden, N. J., and will be redited with new plates before the final tests are made.

Use of Sawdust.

Every now and then the daily papers bring in an item about some one who is trying to utilize the sawdust which accumulates all too rapidly at some sawmills and woodworking establishments.

Meanwhile some of our electric furnace pioneers have quietly gone ahead and have already been using sawdust for years as one of the ingredients for making that exceedingly hard grinding material, carborundum.

To produce this heavy current is passed through a core of coke surrounded by a mixture of carbon, sand, salt and sawdust. Which again goes to show that marvelous results can be obtained from the most commonplace ingredients when the magic of the electric current is available.—Popular Mechanics.

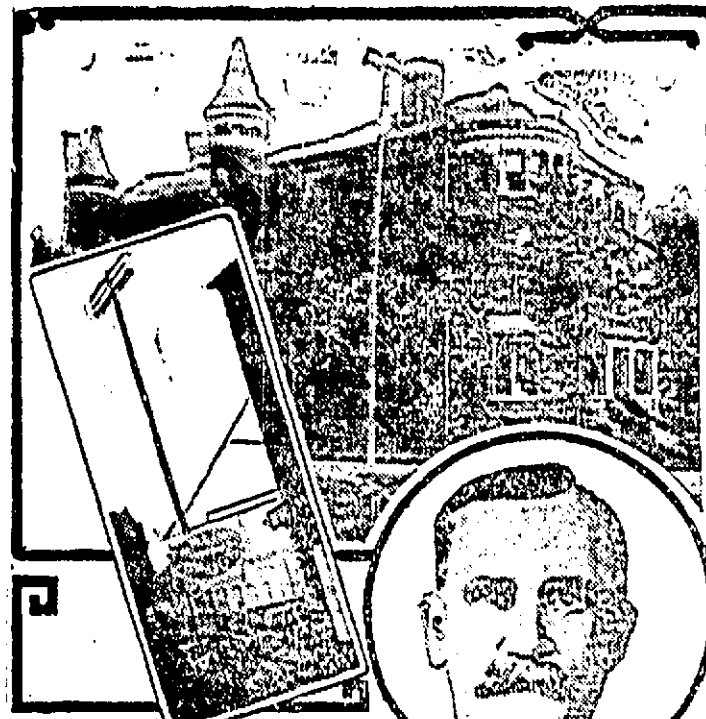

From the Far North.

A Hamilton merchant is displaying in his show window the following articles, which were sent him by Chief Engineer Wardwell of the Roanoke. Perry's Arctic ship: A pair of Eskimo trousers, a sealskin hood, a blue fox tail, a woman's necklace, several images carved from walrus ivory, a seal-skin coat, an Eskimo doll, tobacco pouch made by the natives of Greenland, a pair of sealskin boots, a bunch of snows used to sew clothing in the far north, a pair of walrus tusks, the horn of a narwhal, the skins of seals and of a musk ox calf, a piece of beryl from the northern part of Grant Land and a crystal from Cape Sheridan, which is 82 degrees 27 minutes north. Mr. Wardwell is a Bucksport man.—Kennebec Journal.

Designated by Name.

In many English prisons the women are addressed by their first names instead of by numbers, as the men are.

GOVERNOR HARMON ACTS IN NEWARK, OHIO, LYNCHING.

Jail at Newark, Ohio, which was raided and eventually hanged to a telegraph pole. At left, scene of the lynching. Lower right, Mayor Herbert Atherton, who has been suspended by Governor Harmon.

or Herbert Atherton, Sheriff William Linke is receiving much blame for the half-hearted manner in which he handled the situation. The testimony of all who witnessed the crime was that had the state troops been called earlier it could have been prevented.

Newark, Ohio, July 13.—The prompt action of Governor Harmon in regard to the lynching of Carl Etherington by a mob of 500 enraged men has been evident in the suspension of May-

Milk of Quality

Milk can never be too pure and sweet. By pasteurizing milk it is made pure. Pure milk it is made pure. Pure than any other milk. It is perfectly safe to use any quantity in hot summer weather.

Janesville Pure Milk Co

You need not suffer from sickness, and you need not fill yourself with drugs in order to be made well.

The great new science of Chiropractic (CHI-RO-PRAK-TIK) has shown the world that in order to be made well, the cause of the ailment must be removed. It is not the disease, but the cause of the disease that must be removed. Chiropractic is the only method that treats the cause of the disease, and not the symptoms. It is a science that has been proven by the thousands of cures it has effected. It is a science that is safe, and it is a science that is free of charge.

OFFICIAL NOTICE No. 103

Street Assessment Notice

Published by the authority of the Common Council of the City of Janesville, Wisconsin, July 12, 1910.

To WHOM IT MAY CONCERN: The City of Janesville having decided that it was expedient and necessary that Fifth avenue from then street to Walker street be improved by the laying of gutters and curbing and otherwise improved at the expense of the real estate to be benefited thereon, and having ordered that the street improvement committee, acting as a board of public works, view the premises and determine the benefits and damages which shall accrue to each parcel of real estate affected by such change and improvement; the entire cost of the contemplated work or improvement upon said street and the amount that shall be assessed to each parcel of such real estate as benefits and damages accruing thereon by such contemplated work or improvement.

Now, therefore, notice is hereby given that in pursuance of said order, plans and specifications for said work have been prepared and approved and the entire cost of the improvements contemplated in said plans and specifications determined and that we have viewed the entire territory and each parcel of real estate affected by said improvements, and determined the benefits and damages which shall accrue to each parcel of real estate as benefits or damages accruing thereon by such contemplated work or improvement.

Notices to further view to all persons interested in said street improvement, and to all owners of real estate in the city of Janesville, to appear in the office of the street assessment committee in the city clerk's office in said city, and with the assessor for the purpose of the street improvement, on the date of this notice and that on the 25th day of July, at two o'clock in the afternoon, the said committee will be in session at their office to hear all objections that may be made to said reports.

Signed: W. C. KIRCH, CHIEF CLERK, JOHN J. SHERIDAN, ALBION G. BUCHHEIM, Street Assessment Committee.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

A BIG bunch of magnificent pansies crowded close together in a tall china vase with a base of roses upon it—yes, it scarcely seems possible in these enlightened days, but that is what I actually saw yesterday in the home of a well educated woman.

That low growing flowers like violets and pansies and marigolds should not be put into tall vases is an axiom of such skill. Again and again I have seen the effect of such flowers utterly ruined by that treatment.

If you follow the habit of the flower's growth in selecting a vase for it, you will probably be safe. Tall growing flowers like long stemmed roses, daffodils, jonquills, poppies, carnations and lilies should have tall, straight, vases. Low growing flowers such as violets, pansies, marigolds, etc., belong in bowls or very low wide flaring vases.

In buying vases remember that you are buying a frame, for the vase should always be subordinate to the flower, so that when you look at the vase of flowers you see the flowers, not the vase, just as you should see the picture and never the frame.

For this reason there should never be any design except a conventionalized one upon a vase. Any base relief, spooling as it does, the line of the vase, is extremely bad.

Glass vases are probably the best because the stems of many flowers, such as the long, graceful stem of the rose and the exquisite pale green stalk of the jonquil, are almost as beautiful as the flowers themselves, and the glass vase, of course, displays the charm.

The clearer and more revealing the glass, the more desirable the vase. Cut glass, for this reason, is not as good as plain glass and colored glass, unless it happens to harmonize perfectly with the flowers and colors, is not as good as colorless. The perfect vase or bowl, most artists consider, is that of absolutely clear crystal glass.

Although glass is the best flower holder, there are many vases and bowls in dull soft colored china and crockery that make beautiful frames for certain flowers. As the Japanese, the people with the most perfect feelings for flowers, have naturally created the most perfect receptacles for them, a Japanese store is one of the best places to get vases and bowls.

"Do not mix flowers," is an artist's rule that I think may be taken with a grain of salt. It may be quite right for cultivated flowers, but I do not know of anything prettier than some of the combinations nature herself makes, such as buttercups and daisies and grasses, or clover and daisies, or golden rod and asters.

Do not crowd too many flowers into a vase or bowl. That is the ordinary failing of the amateur. Divide what you would naturally put into a given receptacle in half and it will probably be nearer the artistic quantity.

Try to have two or three one-flower vases in your home. There are some flowers, notably the rose, that are so perfect that a single blossom is sufficiently decorative for a room.

I have a friend who keeps upon her desk all the year around a tall crystal vase with a single white rose in it. When I admired the custom she explained its origin in a statement a great artist had once made to her, that two things represented absolutely perfect beauty of line and coloring—a half-opened white rose and a perfect violin. She said she couldn't afford the violin but she could the rose and so she tried to have it always before her as she worked.

Often as I read her poem I fancy I can feel the influence of that perfect white rose intently demanding of her a replica of its own perfection and sweetness.

Isn't there a suggestion for you in that custom?

LIFE SAVING STATIONS.

By MARY BUSHNELL.

As the days of school draw to a close all over the country the matter of summer recreation comes up.

More girls go wrong in summer than in winter.

More boys fall into evil companionship during the summer than during the winter.

Once more the call and lure of the days of indolence slays souls.

What are you going to do to prevent the worst happening to your girl, oh, friend?

How will you plan to make your boy secure, mothers and fathers?

More danger is found in village life to your children than in cities—the psychologist to the contrary notwithstanding.

Did you ever sit down and coolly consider what there is for the boys and girls of the small town to do—except to get into mischief?

The third city soul says with a grain of self pity, "Oh, the woods and the woods—the sweet country air—the bathing brook!"

That sounds like poetry, but if you had seen all that every day of your life—and life seems long to 16—if no one had ever really taught you to see with spiritual eyes as well as physical ones, there would be the same eternal sameness to the country because that the city dweller finds in brick walls and asphalt pavements.

I have always felt sorry for the country lad and lassie.

Unless one is born with a love of nature, nature grows to be a terrible bore. Not even the world-weary city man can stand more than a month or two of the life, however much he may long for the cool breezes and waving trees at times.

The trouble in the villages is that it is taken for granted that the beauties of nature are all sufficing.

Children—and that means from six months to sixty years—must know how to play wisely to get the best of any life.

Play grounds for city children are no more necessary than a director of play in the country and village.

It is recommended to the small town clubs—the idea of making life so pleasant legitimately during the summer months that legitimate pleasures will not enter the minds of the children.

Church-going is the sole dispassion in most small towns. It is not sufficient.

Busy riding and long strolls in the evening are part of our reckless American ways of strengthening character. And we lose lives and souls in the process.

Make your home a meeting place for the young people of your community, whether you be in the city or the country. Teach the children to play and play yourself. Establish tennis and five o'clock teas and make your home a center of joy for those healthy, hearty young creatures who need an outlet for their energies. One wise man or woman who enters into this with a real heart interest may revolutionize a whole community.

This is not a word for your neighbor, friend, but for you who read, wherever you be.

Get busy—and your home will be as much a life-saving station as any on the rocky shores of our big, generous well-meaning, reckless country.

PLAY BALL—See ad elsewhere.

SOCIETY WOMAN TO SPEND HER SUMMER ABROAD.

Mrs. Cornelius Vanderbilt.

New York, N. Y.—This week completes the exodus of the few remaining members of New York society for their summer residences. Mrs. Cornelius Vanderbilt is to spend her summer quietly abroad.

Mrs. Vanderbilt is the youngest daughter of Mr. and Mrs. Richard T. Wilson, and is one of the real able women of New York society.

She was married to Mr. Vanderbilt about eight years ago and is slightly her husband's senior. Although a great belle before her marriage, she is not so much in society and is seen at all the smartest functions, she has been devoted to her husband and family.

She is a very handsome woman, with well-rounded figure, golden brown hair, large blue eyes and beautifully modeled, pronounced features. Of late her health has not been of the best and she has spent considerable time abroad.

Her eldest sister is Mrs. Ogden Goelet, whose son, Robert Goelet, married Miss Elsie Whelan of Philadelphia. Her second sister married the Hon. Herbert Eaton, an Englishman, at one time attached to the British embassy at Washington. He succeeded to the title of Lord Herbert shortly before his death a few years ago.

All subscription bills to The Daily Gazette in Janesville are payable monthly, providing, of course, an advance payment has not been made. Subscribers will confer a favor by making arrangements for a favor by mail more than once. With several thousand people to see each month you can understand the need for co-operation on your part.

GAZETTE PRINTING CO.

Traveling and Driving Coat of Blue Serge. This is a sort of appendage, all enveloping coat that gives special comfort to the woman who lives in the suburbs and must often wear pretty evening frocks on the train. The loose, rigid garment covers up everything beneath it without being snug enough to crumple chiffon or other delicate trimmings. The model is made of lightweight blue serge and is extremely simple in style, with seamless shoulder effect and pleats set in below the stitched belt to make fullness around the feet. At the neck is a bit of bright, oriental embroidery, and the big, flat buttons of gummetal are another cheerful touch.

Fact and Fiction.

The Manager—"Well, Flossie, what do you want now?"

The Actress—"I want a raise, and I want it now."

The Manager—"How'd it be if I'd raise you \$100 a week in the press stories and only reduce your real pay \$2.50?"

DAILY DIET AND HEALTH HINTS

By DR. T. J. ALLEN, Food Specialist

AVOID FICTITIOUS FLAVORS.

Pleasing flavor in food is necessary to good digestion, but fictitious flavor hinders digestion.

Each food requires its own particular secretion, as Pavlov has shown by experiments upon dogs. This proper, selective secretion is stimulated by the native flavor in the food, and when a false flavor is substituted normal digestion is hindered or largely prevented. Children especially should be encouraged to eat all they wish of a particular food at a time, excluding, of course, all foods improper for them, such as rich cake and spiced foods, but allowing fruits, in proper condition, avoiding the conventional habit of seeking artificial flavors and mixtures of foods. There need be no fear that all the elements of nutrition will not be supplied. Most foods contain all the elements in varying proportion, and if the normal appetite is not destroyed by disguising the natural taste of the food, it will select naturally the single food containing the elements needed. And this will be done best on a narrow range of foods. Ideal feeding is monodietetic. That is manifestly the case in infancy, and it is well illustrated in the case of some of the lower animals. Of course established habits and idiosyncrasies must be recognized.

The man who is accustomed to go to bed moderately early, and who takes his full rest of eight or nine hours, feels quickly what are the symptoms of broken sleep, if, for a single night only, he is deprived of his natural repose. The bad habit of sleeplessness tells on the life; there is about the person who suffers from sleeplessness a restless anxiety, an irritability, and a nervous feebleness which no drugs can, entirely, overcome. The feebleness which falls to the lot of the robust who deprive themselves in youth, or who are deprived, of the due amount of sleep, taken in due season, is greatly increased, and is of much more serious moment when it falls to those who are afflicted with some disease.

Those who sleep differently and irregularly, are more easily affected by direct causes of disease, and are less amenable to means of cure. To this should be added the equally important fact that those who are habituated to full and regular sleep are those who recover most readily from sickness. Sleep reduces fever, improves the nutrition of the body, and strengthens it, helps to get rid of poisonous waste matter, soothes pain, quiets the nerves, clears the brain and encourages the healing of wounds.

EXPIRES WITHOUT HIS REVENGE.

Henry Dexter Spends Many Years Searching for Son's Slayer.

New York, July 12.—Henry Dexter, the millionaire president of the American News company, who died at his home here in his ninety-eighth year, spent the greater part of the last seven years of his life in an unrelenting search for the murderer of his son, Orlando P. Dexter. A reward of \$10,000 offered by Mr. Dexter for the apprehension of the murderer is said to be contained in a codicil to Dexter's will.

Orlando P. Dexter was shot in September, 1903, while driving along a road on his estate in the Adirondack mountains. The bullet that killed him passed entirely through his body and killed the horse he was driving. It was believed that Dexter was murdered by some one who had a grudge against him because he had bought about 10,000 acres of land in the best game section of the Adirondacks.

Henry Dexter always believed that his son's murderer was being shielded by prominent persons. He is said to have expended at least \$50,000 in his efforts to clear up the mystery. As a memorial to his son he erected the new building of the New York Historical society in Central park west at a cost of \$350,000.

CHARLTON TO HAVE FREEDOM.

United States Will Refuse to Surrender Slayer to Italy.

Washington, July 13.—Dexter Charlton, who is under arrest at Hoboken, N. J., charged with the murder of his wife, Mrs. Mary Scott Charlton at Lake Como, Italy, will not be surrendered in response to the request made by the Italian government for his extradition to Italy for trial. The intention of the officers of the state department is to decline to surrender him. This means that Charlton will go free, as there is no court in this country with jurisdiction to try him.

AUTO TOUR COMING THROUGH THIS CITY

Cars in Reliability Run of State Association Will Reach Janesville July 18.

Everything is in readiness for the start of the first annual reliability tour under the auspices of the Wisconsin State Automobile Association which will pass through Janesville July 18. This tour is in no sense a race and will be conducted under the most strict and rigid rules. A driver who violates the law in the state or cities through which this tour passes will be immediately disqualified.

It is the wish of the officials and contestants that the farmers make a special effort on the day that the tour passes by to keep their animals off the road, so that there will be no damage done whatever.

This tour is an educational one in many ways and it will be accompanied by W. O. Hotchkiss, Chief of the Highway Division of the State Geological Survey for Wisconsin. Mr. Hotchkiss will make the roads and conditions of same a study on this inspection tour and will be in a better position than ever to know conditions as they exist in many parts of the state.

The start will be made from Milwaukee, Monday, July 18, and will include Waukegan, Palmyra, Whitewater, Janesville, Brookfield, Monroe, Albany, Brookline, Oregon and Madison, ending at Madison for the first day.

Tuesday, July 19, the tour will pass through Portage, Baraboo, Alton, Readburg, La Valle, Waukegan, Elroy, Kendall, Oatridge, Cushton, La Crosse.

Wednesday, July 20.—The tour will pass through Oshkosh, Holmen, Galeville, Elletts, Blair, Whitehall, Pigeon Falls, Osseo and Eau Claire—end of third day's run.

Thursday, July 21.—Chippewa Falls, Cadott, Boyd, Stanley, Thorp, Owen, Curtiss, Abotsford, Athens, Merrill, Wausau, Stevens Point, Waupun, Weyauwega and Appleton—end of fourth day's run.

Friday, July 22.—Menasha, Neenah, Oshkosh, Fond du Lac, Oakfield, Waupun, Beaver Dam, Columbus, Watertown, Oconomowoc, Milwaukee.

Cars entered in this contest to date are as follows:

Two Ramlers, by the Rambler Garage Co., of Milwaukee.

Two Indgers, by the Indger Automobile Co., of Columbus, Wis.

The Mitchell Ranger, by the Mitchell Auto Co., of Milwaukee. This car made the initial trip over the 1910 Glidden Tour route and is looked upon as one of the star attractions of the tour.

A Cadillac 30, by the Jonas Automobile Co., of Milwaukee.

A Jackson, by Wendell McElmoway of West Salem, Wis.

Three Klaskolks, by the Klaskol-Kar Co., of Milwaukee.

Two Buick cars, one entered by the Holmson Automobile Co., of Madison, and one by the Buick Motor Co., of Milwaukee.

An Overland 42, by the Bates-Odenbrett Auto Co., of Milwaukee.

A Johnsons by the Johnson Service Co., of Milwaukee.

A Pierce-Rachel, by the Morrison Motor Car Co., of Milwaukee.

A Chalmers, by the Koppeler Motor Car Co., of Milwaukee.

A Reo, by the Curtis Automobile Co., of Milwaukee.

A Speedwell, by the Stephenson Motor Car Co., of Milwaukee.

A Pope-Hartford, by Emil Eastberg, of Milwaukee.

Entries close on Tuesday, July 12, and it is expected that by this time the entry list will have been increased by at least half a dozen more cars.

A great deal of interest is being taken in this tour by manufacturers, dealers and private car owners all over the state and the run is looked forward to as one of the most interesting and attractive reliability contests to be held in the motoring world during 1910.

The commercial vehicle section of the tour will undoubtedly include a Gramm truck, a Buick delivery wagon, a Utility truck, a Stetaburg truck and possibly some others. The inter-

FAREWELL BANQUET FOR DR. C. G. DWIGHT

And Wife Was Given at Grand Hotel Last Evening and Attended by Company of Thirty.

At the Grand hotel last evening, Janesville physicians and their wives—numbering thirty in all—tendered a farewell banquet to Dr. and Mrs. Corydon G. Dwight, who are to depart on July 20 for their future home in Los Angeles. The elaborate repast was served in faultless style and Dr. G. C. Dwight presided over the talk around the circle which followed it. Responses were made by Dr. E. E. Lombard, Mrs. George Elford, Dr. J. F. Pomeroy, and Dr. Dwight. The whole affair was arranged without knowledge of the guests of honor and was a genuine surprise. Those present were: Dr. and Mrs. J. F. Pomeroy, Dr. and Mrs. E. E. Lombard, Dr. and Mrs. Frank C. Binnewies recently of Milton, Dr. and Mrs. George Elford, Dr. and Mrs. James Mills, Dr. and Mrs. R. W. Elden, Dr. and Mrs. T. W. Sizum, Dr. and Mrs. Wayne A. Munn, Dr. and Mrs. Charles Sutherland, Dr. and Mrs. Fred Sutherland, Dr. and Mrs. M. A. Cunningham, Dr. and Mrs. G. C. Wauke, the Doctors McGuffey and Fred Welch, and Miss McGuffey.

YESTERDAY'S RAIN A GREAT BLESSING

Precipitation Amounted to Nearly One and a Fifth Inches in This Vicinity.

Commencing shortly after eleven o'clock yesterday morning, a generous downpour of rain broke the protracted dry spell in this section of Wisconsin. Though observers claim that one and sixty-five hundredths inches fell here on Saturday, the storm was only local in its scope and areas no further distant than the golf links were almost entirely overlooked. That storm brought some little damage as well as great blessings, the Christ church cupola being struck by a lightning bolt. Yesterday's gentle precipitation amounted to 1 1/5 inch in an hour's time and there was an additional fall of one and a half tenths of an inch during the heavy shower at 12:30 p. m. For Janesville the month's total rainfall was 2.81 inches. The rain yesterday was general and it is hardly necessary to state that it has been an inestimable blessing to crops and pastures and all vegetation.

SHERIFF AT NEWARK RESIGNS.

Quits Before Hearing in Connection With Ohio Lynching.

Newark, O., July 13.—Sheriff Linko, against whom charges of neglect of duty were preferred as a result of his failure to prevent the lynching of the twelve Etherington by a mob Friday night, has resigned.

Seven alleged rioters are in the Leaking county jail here. More arrests are expected as the result of the new city's administration's efforts to bring to justice the members of the mob.

ONE KILLED, 4 HURT, BY AUTO.

Three Girls Among Injured at Prairie City, Iowa.

Prairie City, Ia., July 13.—A. Kling of Monroe, thirty-five years old, was killed and four companions were injured when their automobile turned turtle five miles west of Prairie City. Samuel Cowles of Pleasantville suffered two fractured ribs and Misses Grace Hall, Hazel Warner and Maud Gildred of Des Moines have minor injuries.

WHO OWNS ALASKA? TAFT TO FIND OUT

Attorney General Wickersham to Speed Northward to Gather Facts for President.

Doverly, Mass., July 13.—To find out whether the United States or the Guggenheims are the owners of the territory of Alaska will be the task for Attorney General Wickersham and Secretary Nagel of commerce and labor to ascertain.

They spent the afternoon with President Taft and will leave Montreal Monday for Vancouver, from which point they will take the Albatross, the fish commission steamer, for Alaska.

Since the fight before the senate sub-committee on Judiciary at the last session in which charges and counter-charges were made by Delegate Wickersham of Alaska, Marshal Boyce and District Attorney Sutherland of the First circuit, on the one hand, and Governor Clark on the other, the president has decided that he wants to know the truth about the farthest north possession. Boyce and Sutherland went to the extent of charging that the Guggenheims, through the governor and other officials in Alaska, controlled that territory and that the ousting of Boyce and Sutherland from office was the result of Guggenheim influence. Attorney General Wickersham said that as the territory is practically run by the federal judges and district attorneys it is important that Washington know what is going on up there and he is going to put in a couple of months finding out.

COURT UPHOLDS GOV. DENEEN.

Declares Cairo Sheriff Was Illegally Appointed by County Board.

Cairo, Ill., July 13.—Judge W. W. Deneen rendered a double-barreled decision in the Alexander county circuit court when he declared the law under which Frank E. Davis was removed from the office of sheriff by Governor Deneen is constitutional and that the county board had no authority to appoint Fred D. Nellis sheriff to fill the vacancy because the term of office was more than a year and an election should have been called to fill the vacancy. The decision of the court declaring that Nellis was illegally appointed sheriff does not invalidate any of his acts. Nor does it immediately remove him from the office. In fact, it is expected that the whole question will be taken to the supreme court.

GRAND TRUNK MEN MAY STRIKE

Officials of Road Claim They Cannot Pay Advanced Scale.

Detroit, Mich., July 13.—"A strike on the Grand Trunk road appears to be inevitable unless the management recedes from its present position," said a representative of the conductors and trainmen in Detroit. Thirty-five lines in the east have adopted the scale, and the Grand Trunk is the only line of importance now holding out. Mr. Hayes says the road can't afford to pay the increased wage, in spite of the company's financial report.

JUDGE ABNER SMITH PAROLED.

Serves More Than Year at Joliet for Wrecking Bank.

Springfield, Ill., July 13.—Judge Abner B. Smith of Chicago was paroled from the Joliet penitentiary by the state board of pardons. Judge Smith was convicted on a charge of wrecking the Bank of America and was given an indeterminate sentence. After a long drawn out fight before the board of pardons Judge Smith was committed to the penitentiary, where he has served more than a year.

Dies in Cloudburst.

Limo Lake, N. Y., July 13.—A cloud burst, followed by an electrical display of terrific violence, broke over Limo Lake, a summer resort in the mountains, and one life was lost and two persons were seriously injured.

MUSKOKA THE BEAUTIFUL

Do you know the place? If not, your pleasure has suffered. Ask for that handsome Muskoka folder issued by the Grand Trunk Railway System. It contains a large map, lots of views, and a fund of facts. Less than a day's journey from principal American cities. For all particulars apply to H. G. Elliott, First A. G. P. A., 917 Merchants Loan & Trust Building, Chicago.

An Appreciation.

An old sea captain, Earl Cardigan, tells a little story. The old fellow was arming over the leaves of a friend's album when, coming to the photograph of a young lady whose acquaintance he had made rather recently, he was asked what he thought of her. "Awful," was the old sea rover's reply. "If I were going to make a rare stroke of madness, I'd buy that girl for what she is worth and sell her for what she thinks she is worth!"—Ideas.

SWAMP-ROOT

is not recommended for everything; but if you have kidney, liver or bladder trouble it will be found just the remedy you need. At drug stores in fifty cent and dollar sizes. You may have a sample bottle of this wonderful discovery by mail free, also pamphlet telling all about it.

Georgia For Income Tax.

Atlanta, Ga., July 13.—The lower house of the general assembly adopted the income tax resolution by a vote of 125 to 85. A similar resolution was adopted by the senate Monday.

Banker Cashes Check, Drops Dead.

Friday, O., July 13.—Just as he had given a customer the money on a check, Walter L. Shoemaker, sixty-five years old, fell dead in his bank at Mount Blanchard.

AN INVITATION TO WOMEN

The Lydia E. Pinkham Medicine Company of Lynn, Mass., cordially invite any woman interested to call at their laboratory at Lynn, Mass., and see for herself the care which is taken with the vast correspondence received from the women of this country. No letter or testimonial has ever been made public without the written consent or consent of the writer. No confidence has ever been violated, and never in their history have they sold or disposed of any of their letters from women. It is for these reasons that thousands of suffering American women every year feel free to write Mrs. Pinkham for her valuable advice, which is always given free of charge.

The Courage of Captain Plum

By JAMES OLIVER CRAWFORD

Copyright 1908 by Robert Merrill Co.

The sheriff jerked himself erect without flinching. Hurried footsteps had come close to their heels. The rear guard were so near that they could have touched them with their guns. Had some spot of lesser gloom ahead betrayed the prisoner's bowed head and Jackum's white face turned to it? There was a steady pressure on Nathaniel's arm now, a warning, frightened pressure, and the hand that made it trembled. Jackum feared the worst—but his fear was not greater than the chill of disappointment that came to another excited heartbeat of Nathaniel's heart. What had the jailer meant to say? What did he know about Marion and Winnome, and why had he given birth to new hope in the same breath that he mentioned their names?

His words carried at least one conviction. Marion was alive despite her brother's somber prophecies. If she had killed herself the sheriff would not have coupled her name with Winnome's in the way he had. Nathaniel's nerves were breaking with suspense. He stifled his breath to listen, to catch the faintest whisper that might come to him from the white faced man at his side. Each passing moment of silence added to his desperation. He squeezed the sheriff's hand in his arm, but there was no responding signal; in a patch of thick gloom that almost concealed the figures ahead he pressed near to him and lowered his head again—and Jackum pushed him back fiercely, with a low curse.

They emerged from the forest and the clear starlight shone down upon them. A little distance off lay the lake in shimmering stillness. Nathaniel looked boldly at the sheriff now, and as his glance passed beyond him he was amazed at the change that had come over Neil. The young man's head was bowed heavily upon his breast, his shoulders were hunched forward, and he walked with a listless, uneven step. Was it possible that his magnificent courage had at last given way?

A hundred steps farther they came to the beach and Nathaniel saw a boat at the water's edge with a single figure guarding it. Straight to this Jackum led his prisoners. For the first time he spoke to them aloud. "One in front, the other in back," he said.

For an instant Nathaniel found himself close beside Neil and he prodded him sharply with his knee. His com-

"Don't Give Up, Hope—Marion—Winnome—"

ppanion did not lift his head. He made no sign, gave no last flashing comradeship with his eyes, but clutched

THROW OUT THE LINE

Give Them Help and Many Janesville People Will Be Happier. "Throw Out the Life Line!"

The kidneys need help. They're overworked—can't get the poison filtered out of the blood.

They're getting worse every minute.

Will you help them?

Donn's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.

Will cure any form of kidney trouble.

Mrs. Thomas Bowles, 217 Main St., Janesville, Wis., says: "I have used Donn's Kidney Pills, procured at the People's Drug Co., at different times for more than ten years and I know they are reliable. I first took the remedy when suffering from an attack of kidney trouble and the contents of a few boxes cured me. I have been in good health since. I publicly recommended Donn's Kidney Pills several years ago, and have since then advised their use to every one I have heard complaining of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Donn's—and take no other.

into the bow of the boat and sit down with his chin still on his chest, like a man lost in stupor.

Nathaniel followed him, scarcely believing his eyes, and sat himself in the stern, leaning comfortably against the knees of the man who took the tiller. He felt a curious thrill pass through him when he discovered a moment later that this man was Jackum. Two men seized the oars amidships. A fourth, with his rifle across his knees, sat facing Neil.

For the first time Nathaniel found himself wondering what this voyage meant. Were they to be rowed far down the shore to some secret fastness where no other ears would hear the sound of the avenging rifles, and where a few inches under the forest mold, their bodies would never be discovered? Each stroke of the oars added to the remoteness of this possibility. The boat was heading straight out to sea. Perhaps they were to meet a less terrible death by drowning, an end which, though altogether unpleasant, held something comforting in it for Captain Plum. Two hours passed without pause in the steady labor of the men at the oars. In those hours not a word was spoken. The two men amidships held no communication. The guard in the bow moved a little now and then only to relieve his cramped limbs. Neil was absolutely motionless, as though he had ceased to breathe. Jackum uttered not a whisper.

It was his whisper that Nathaniel waited for, the signaling clutch of his fingers, the sound of his breath close to his ears. Again and again he pressed himself against the sheriff's knees. He knew that he was understood, and yet there came no answer. At last he looked up, and Jackum's face was far above him, staring straight and unseeing into the darkness ahead. His last spark of hope went out.

After a time a dark rim loomed slowly up out of the sea. It was land, half a mile or so away. Nathaniel sat up with fresh interest, and as they drew nearer Jackum rose to his feet and gazed long and steadily in both directions along the coast. When he returned to his seat the boat's course was changed. A few minutes later the bow grated upon sand. Still motionless as specters the guards leaped ashore and Neil roused himself to follow them, climbing over the gunwale like a sick man. Nathaniel was close at his heels. With a growing sense of horror he saw two ghostly stakes thrusting themselves out of the beach a dozen paces away. He looked beyond them. As far as he could see there was sand—nothing but sand, as white as paper, acclimating in a blinding flash of needles in the starlight. Instinctively he guessed what the stakes were for, and walked toward them with the blood turning cold in his veins. Neil was before him, and stopped at the first stake, making no effort to lift his eyes as Nathaniel strode past him. At the second, a dozen feet beyond, Nathaniel's two guards halted, and placed him with his back to the post. Two minutes later, bound hand and foot to the stake, he shifted his head so that he could look at his companion.

Neil was similarly fastened, with his face turned partly toward him. There was no change in his attitude. His head hung weakly upon his chest, as if he had fainted.

What did it mean?

Suddenly every nerve in Nathaniel's body leaped into excited action.

The guards were entering their boat! The last man was shoving it off—they were rowing away! His throbbing muscles seemed ready to burst their bonds. The boat became indistinct in the starry gloom—a mere shadow—and faded in the distance. The sound of oars became fainter and fainter. Then, after a little, there was lapped back to him from far out in the lake a man's voice—the wild snatch of a song. The Mormons were gone! They were not to be shot! They were not—

A voice spoke to him, startling him so that he would have cried out if it had not been for the cloth that gagged him. It was Neil, speaking coolly, laughingly.

"How are you, Nat?" Nathaniel's staring eyes revealed his astonishment. He could see Neil laughing at him as though it was an unusually humorous joke in which they were playing a part.

"Lord, but this is a funny mess!" he chuckled. "Here am I, able and willing to talk—and there you are, as dumb as a mummy, and looking for all the world as if you'd seen a ghost! What's the matter? Aren't you glad we're not going to be shot?"

Nathaniel nodded.

The other's voice became suddenly sober.

"This is worse than the other, Nat. It's what we call the 'Straight Death.' Unless something turns up between now and tomorrow morning, or a little later, we'll be as dead as though they had filled us with bullets. Our only hope rests in the fact that I can use my lungs. That's why I didn't let them know when my gag became loose. I had the devil's own time keeping it from falling with my chin; pretty near broke my neck doing it. A little later, when we were sure Jackum and his men are out of hearing, I'll begin calling for help. Perhaps some fisherman or hunter—"

He stopped, and a chill ran up Nathaniel's back as he listened to a weird howl that came from far behind them. It was a blood-curdling sound and his face turned a more ghastly pallor as he gazed inquiringly at Neil. His companion saw the terrible question in his face.

"Wolves," he said. "They're away back in the forest. They won't come down to us." For a moment he was silent, his eyes turned to the sea. Then he added: "Do you notice any queer about the way you're bound to that stake, Nat?"

There was a thrilling emphasis in Nathaniel's answer. He nodded his head affirmatively, again and again.

"Your hands are tied to the post very loosely, with a slack of any six inches," continued Neil with an appalling precision. "There is a rawhide thong about your neck, wet, and so tight that it chafes your skin when you move your head. But the very uncomfortable thing just at this moment is the way your feet are fastened. Isn't that so? Your legs are drawn back, so that you are half resting on your toes, and I'm pretty sure your knees are aching right now. Eh? Well, it won't be very long before your legs will give way under you and the slack about your wrists will keep you from helping yourself. Do you know what will happen then?"

He paused and Nathaniel stared at him, partly understanding, yet giving no sign.

"You will hang upon the thong about your neck until you choke to death," finished Neil. "That's the 'Straight Death.' If the end doesn't come by morning the sun will finish the job. It will dry out the wet rawhide until it grips your throat like a hand. Poetically we call it the hand of Strang. Pleasant, isn't it?"

The grim definiteness with which he described the manner of their end added to those sensations which had already become nearly discomforting to Nathaniel. Had he possessed the use of his voice when the Mormons were leaving he would have called upon them to return and lengthen the thong about his ankles by an inch or two. Now, with almost brutal frankness, Neil had explained to him the meaning of his strange posture.

His knees began to ache. An occasional sharp pain shot up from them to his hips, and the thong about his neck, which at first he had used as a support for his chin, began to irritate him. At times he found himself resting upon it so heavily that it choked his breath, and he was compelled to straighten himself, putting his whole weight on his twisted feet. It seemed an hour before Neil broke the terrible silence again. Perhaps it was ten minutes.

"I'm going to begin," he said. "Listen. If you hear an answer nod your head."

He drew a deep breath, turned his face as far as he could toward the shore, and shouted.

"Help—help—help!"

Again and again the thrilling words burst from his throat, and as their echoes floated back to them from the forest, like a thousand mocking voices, Nathaniel grew hot with the sweat of horror. If he could only have added his own voice to those cries, shrieked out the words with Neil—joined even unavailingly in this last fight for life, it would not have been so bad. But he was helpless. He watched the desperation grow in his companion's face as there came no response save the taunting echoes; even in the light of the stars he saw that face darken with its effort, the eyes fill with a mad light, and the throat strain against its choking thong. Gradually Neil's voice became weaker. When he stopped to rest and listen his panting breath came to Nathaniel like the blowing of steam. Soon the echoes failed to come back from the forest, and Nathaniel fought like a crazed man to free himself, jerking at the things that held him until his wrists were bleeding and the rawhide about his neck choked him.

"No use!" he heard Neil say. "Better take it easy for a while, Nat!"

Marion's brother had turned toward him, his head thrown back against the stake, his face lifted to the sky. Nathaniel raised his own head, and found that he could breathe easier. For a long time his companion did not break the silence. Mentally he began counting off the seconds. It was past midnight—probably one o'clock. Dawn came at half past two, the sun rose an hour later. Three hours to live! Nathaniel lowered his head, and the rawhide tightened perceptibly at the movement. Neil was watching him. His face shone as white as the starlight sand. His mouth was partly open.

"I'm devilish sorry for you—Nat—" he said.

His words came with painful slowness. There was a grating huskiness in his voice.

"This damned rawhide—is pinching—my Adam's apple—"

To be continued.

The great volume of advertising carried in these columns is due to the great circulation of The Gazette. 5200 homes receive The Gazette daily and from this large number of homes many people are looking for just the things advertised each day.

A Renewed Interest in Base Ball

is being shown now since the Jeffries-Johnson fight is past. Baseball fans are now discussing the merits of the best teams in the country as to which will be the pennant winners. We do not propose to let the interest in The Gazette games drop for one minute. People who have already got a game are pleased with it and we feel certain you will get every bit as much enjoyment out of one as they do.

Five coupons with a different date on each one, with 10 cents, will secure you one of these Baseball games. 5 cents extra for postage if it is to be sent by mail.

GAZETTE BASEBALL COUPON.

JULY 13, 1910.

Name

Street No. City

CUMMINS' HEALTH IS IMPROVED.

Iowa Senator Will Enter Politics in August in Three States.

Des Moines, Ia., July 13.—Much improved in health as a result of a month's rest, Senator Albert D. Cummins will enter the fight for insurance in three states about the middle of August. He expects to fill a number of chautauqua dates between now and August 15, when he will enter the Wisconsin campaign and make a number of speeches in the interest of Senator Robert M. La Follette. He will then enter the Indiana campaign and speak for Senator Beveridge, after which he will go to Washington to help the candidacy of Congressman Poindestor.

PINCHOT WILL TAKE THE STUMP.

Former Forester Will Speak in California Campaign.

New York, July 13.—Gifford Pinchot, close friend of Colonel Theodore Roosevelt and former United States forester, announced that he would start for California at once to take up the stump in behalf of Hiram Johnson, who is seeking the gubernatorial nomination in the Golden State and has been endorsed for that honor by the Lincoln-Roosevelt League of California. He will speak also for William Kent, formerly of Chicago, who is an insurgent candidate for congress in California.

THEATER PATRONS STAMPEDE.

Curtain Catches Fire—Parisian Audience in a Wild Scramble.

Paris, July 13.—While the last act of a play was being performed at the Theater Francaise the curtain caught fire. The audience immediately started to stampede, refusing to be stayed by shouts that there was no danger. The play continued to an empty house. It is notorious that many Paris theaters are deathtraps.

Twenty Hurt in Train Wreck.

New Orleans, La., July 13.—Twenty persons were injured, two fatally, in the derailment of the Queen and Crescent express from Cincinnati to New Orleans at Toombsville, Miss. The engine left the track on account of spreading of the rails and plunged over a ten-foot embankment.

MRS. RALPH THOMAS TO FIGHT.

Will Wage Legal Battle to Obtain Possession of Her Daughters.

New York, July 13.—Mrs. Ralph Thomas, former wife of Frank J. Gould, who with her husband, sailed on the North German Lloyd liner Kaiser Wilhelm der Grosse, made it plain that she intended to make a legal fight for the possession of her two little daughters, Helen and Dorothy, and that she would absolutely decline to accept the proffer of Miss Helen Gould to take the guardianship of the children.

DALZELL HAS MAJORITY OF 207.

Pittsburg Congressman Wins Over Opponent on Record of Ballots.

Pittsburg, Pa., July 13.—Congressman John M. Dalzell won out in the recount of the ballots in the Thirtieth congressional district, which was concluded by the Allegheny county commissioners. Dalzell's vote was 11,045, Black's 10,838, a majority of 207 for Dalzell.

\$5,000,000 For World's Fair.

Winnipeg, Man., July 13.—At a luncheon to Premier Sir Wilfrid Laurier of Canada, given by the city, he promised a grant of \$5,000,000 by the government to the world's fair to be held here in 1914. Railway and local governments have promised an equal sum.

Notice of Hearing.

STATE OF WISCONSIN—County Court for Rock County.

Notice is hereby given that at a regular term of the County Court to be held in and for said County, at the Court House, in the City of Janesville, in said County, on the 1st Tuesday, being the 20th day of September, 1910, at nine o'clock a. m. the following matter will be heard and considered—the application of Thos. K. Nolan for the adjustment and allowance of his account as executor of the last will of said John M. Dalzell, deceased, and for the assignment of the residue of said estate, to such other persons as are by law entitled thereto.

Dated July 13, 1910.
By the Court:
John M. Dalzell, County Judge.
Nolan, Adams & Hooper,
Attorneys for Executor,
Janesville, Wis.

The Reason Why.
Else led nuptia to a matrimony hen. Round-eyed and impressive she whispered: "That hen is laying some little ducks and he don't want any little children to bother him."—Duckator.

Premature.
Professor in English Literature (speaking of a woman who was buried alive)—She died and was prematurely buried.—Hamilton College Concordians.

No Cure—No Pay

So many so-called dandruff cures and hair tonics which give but temporary relief have been placed on the market that the public has come to have little faith in preparations of this kind. This being the case, we are glad to announce that at last we have secured a remedy which not only effects cures, but is so certain in its action that these cures are absolutely guaranteed by the manufacturers.

Hughel's Dander=Off

is a radical departure from the hair tonics of the present day. It destroys the parasite which saps the strength of the hair, without destroying the natural oils in which these parasites take refuge and on which the hair depends for its life and vigor. If taken in time there is not a single case which will not yield to this

Guaranteed Cure for Dandruff and Falling Hair

Purchase price will be refunded in every case in which it fails.

La Preferencia Cigar

You can enjoy all the rich Havana flavor of a La Preferencia and yet have the satisfaction of knowing that it's delightfully mild.

More smoked than any other 10 cent cigar.

The "Don't Need" To Theory

In a recent debate at Reno Mr. James Jeffries failed to convince Mr. John Johnson. Some seven or eight years ago Mr. Jeffries was the leading man in his line of work. Business was good and his profits were big.

Having all the money he could handle at the time, he concluded to take a rest. To be sure, he planned to get into the field again at the proper time.

But everything was rosy and there really seemed no good and sufficient reason why he should spend so many hours a day keeping his muscles lithe and strong and his wind good and his heart and nerves in trim.

Eventually the meeting with Mr. Johnson was arranged. Mr. Jeffries was still tolerably content with what he had done.

(Brother, a has-done is about as bad as a has-been.)

Mr. Jeffries did not care to stand up in the training ring and punch and take punches. He did not see any necessity of practicing side-steps and feints and rushes.

He knew all about them. Why, seven years ago he had done all of that he ever needed to do.

Mr. Johnson did not overlook the boxing and the wrestling and the clinching and the sidestepping, etc.

As a result, Mr. Jeffries received Mr. Johnson's compliments on the point of the jaw and his business career closed.

Advertising a business is the training of that business.

Advertising keeps a business healthy.

It tones up its liver, strengthens its biceps, steadies its heart and keeps its nerves in order.

Once in a while a man decides that he is doing so much business that he can stop advertising for a while and run on momentum.

Momentum is the gradual process toward a full stop.

The momentum business is usually prematurely full-stopped by the straight left jab of the well-trained competitor who finds his opening in the fifteenth round.

If you want to stay in business stay in the advertising field.

No matter how much business you are doing, keep up the energy that makes it.

You might as well cut off your legs because you are running well in a foot race as to cut off your advertising because your business is too good.

You might as well tell the insurance man that you are so healthy you will drop the policy for a few years as to stop advertising because the orders are piling up.

"Don't need to" is the eventual preliminary to "Can't do it."

The only man who doesn't need to advertise is the man who has retired from business.

The only policy holder who doesn't need to pay his premiums is dead.

Mr. Jeffries doesn't need to train any more. He is licked.
